Zanevan Engineering was founded with the focused goal of providing individualized attention to clients to achieve their civil and structural engineering project goals. Zanevan Engineering brings together an efficient team of highly experienced engineering project specialists to provide solutions to your project objectives. We are a partner throughout the full life cycle of your project, from project inception and planning through construction oversight. Services we provide include conceptual planning and budget estimates, project management and engineering design, environmental and cultural permitting and clearances, construction plans and specifications, bidding solicitation services, and construction phase contract administration and construction inspection. We strive to ensure the local public agency a successful project upon completion. Our individual experience includes providing contract engineering services to local public agencies, applying a thorough understanding of engineering procedures to capital improvements and enhancement projects. We have successfully worked on numerous MoDOT LPA funded projects to utilize resources to the maximum benefit, and understand the process that each of these types of projects entails. We are based in southwest Missouri, serving clients throughout the state. Zanevan Engineering is currently on the MoDOT prequalification list and maintains that status.

STRUCTURES/BRIDGES

- OFF-SYSTEM BRIDGE REPLACEMENT (BRO)
- PEDESTRIAN BRIDGES
- BRIDGE REHABILITATION
- BRM BRIDGE REPLACEMENT
- BRIDGE HYDRAULIC ANALYSIS

ROADWAY DESIGN

- NEW ROAD DESIGN
- STREET WIDENING PROJECTS
- SIGNALIZED INTERSECTION IMPROVEMENTS
- ROUNDABOUT INTERSECTIONS
- STORM SEWER IMPROVEMENTS
- ASPHALT AND CONCRETE PAVEMENT DESIGN
- STREET LIGHTING
- STREET SIGNING

CONSTRUCTION INSPECTION

- BRIDGE PROJECTS
- ROADWAY IMPROVEMENTS
- SIDEWALK PROJECTS
- CERTIFIED CONSTRUCTION INSPECTORS
- PROJECT DOCUMENTATION

Key Personnel: Jason Eckhart, P.E. is a professional civil and structural engineer and the president of Zanevan Engineering with over 28 years of relevant experience. He has managed hundreds of civil and structural engineering projects including numerous MoDOT LPA funded projects and is very familiar with the LPA project process. He has provided project management and engineering services on bridge structure replacement projects, TAP sidewalk and trails projects, traffic signal design, traffic studies and signal warrants; and has engineered numerous roadway improvement projects. He has managed the construction phase of each of these projects, providing oversight of construction inspection and contract administration, and has provided required project documentation to the local public agency and MoDOT.

Zanevan Engineering is very pleased to offer our professional services for any upcoming LPA projects presented in the Roadway Design, Trails and Sidewalks, Construction Inspection, Traffic Engineering and TEAP and Structures categories. Please refer to the attached brochure for additional information. We anticipate your response and appreciate your consideration.

Sincerely,

Zanevan Engineering, LLC

Jason Eckhart
