SUMMARY

TABLE OF CONTENTS

CHAPTER I - PURPOSE OF AND NEED FOR ACTION

A. PROJECT STATUS I-1
1. Project History I-1
2. Actions Pending I-1
3. Merged NEPA and CWA Procedures I-2

B. PROJECT DESCRIPTION I-2
1. Existing Route Description I-2
2. Description of Study Corridor I-5
3. Roadway Type I-6

C. OVERVIEW OF PURPOSE AND NEED I-6
1. Statement of Basic Project Purpose I-6
2. Statement of Purpose and Need I-6

D. TRAFFIC SAFETY I-7
1. Current Accident Statistics I-7
2. Accident Projections for the No-Build Condition I-8
3. Accident Projections for the Build Condition I-8
4. Projected Accident Cost Saving with Build Condition I-12

E. ROADWAY DEFICIENCIES I-12

F. TRAFFIC CONGESTION I-13
1. Level of Service Criteria I-13
2. "No-Build" Condition I-15
3. Local Demand versus Regional Traffic I-17
4. Local Traffic Trends I-17
5. Current/Projected Traffic Volumes in Urban Areas I-17
6. Proposed Improvements I-18

G. EFFICIENT MOVEMENT OF PEOPLE AND GOODS I-21

H. PUBLIC SAFETY I-22

I. ECONOMIC DEVELOPMENT I-22
1. Review of Existing Development and Activity I-22
2. Land Planning and Regulation I-22
3. Estimate of Economic Effect of Improvements I-23

J. REGIONAL HIGHWAY SYSTEM CONTINUITY I-24

K. RECREATIONAL ACCESS I-24
1. Importance of Tourism to the State of Missouri I-24
2. Travel Demand from Recreational Activities I-24

L. DEFENSE FACILITY ACCESS I-25

M. REFERENCES I-25

CHAPTER II - ALTERNATIVES

A. OVERVIEW OF ALTERNATIVES II-1
1. "No-Build" Alternative II-1
2. Transportation Systems Management (TSM) Alternatives II-1
3. Mass Transit Alternatives II-2
4. "Highway Build" Alternatives II-2

B. "NO-BUILD" ALTERNATIVE II-2
1. Existing and Committed Projects II-3
2. Traffic Assignments II-3
3. Cost Effectiveness Analysis II-4

C. TRANSPORTATION SYSTEM MANAGEMENT ALTERNATIVES II-4
1. Intersection and Lane Improvements II-5
2. Traffic Signal Improvements II-5
3. Restriping II-6
4. Access Management II-6
5. One-Way Streets II-6
6. Demand Management II-7
7. Conclusion II-7

D. PUBLIC TRANSPORTATION ALTERNATIVES II-7

E. HIGHWAY BUILD ALTERNATIVES II-8
1. Overview of Highway Build Alternatives II-8
2. Identification of Reasonable Alignment Alternatives II-10
3. Preliminary Screening of Highway Alternatives II-11
4. Traffic Assignments II-17
5. Cost Effectiveness Analysis II-21
6. Evaluation of Retained Alternatives II-27

F. SUMMARY OF REASONABLE ALTERNATIVES II-32
1. "No-Build" Alternative II-32
2. TSM Alternative II-32
3. Improvement to the Existing Facility II-33
4. Highway Build Alternatives II-33
5. Preferred Alternative II-33
6. Interchange Locations II-34

G. AREAS OF CHANGE FROM DEIS AS A RESULT OF LOCATION PUBLIC HEARING II-35
1. Area 1 - Shift of Alignment to miss Baker House II-36
2. Area 2 - Shift of Alignment to miss Moore House II-36
3. Area 3 - Improve Alignment in Area of Route FF Interchange to Reduce Impacts II-36
4. Area 4 - Shift of Alignment to avoid Bruchett House II-37
5. Consideration of Alternatives North of Warrensburg II-37
6. Area 5 - Move Alignment Closer to the City, South of Warrensburg II-38
7. Area 6 - Shift to Reduce Impacts on Farmstead II-39
8. Area 7 - Improve Interchange Position at Route 2 ..... II-39
9. Area 8 - Shift to avoid Farmstead II-40
10. Area 9 - Revise Interchange Layout to Reduce Impacts II-40

H. CONSTRUCTION COST SUMMARY II-40

I. REFERENCES II-43

CHAPTER III - AFFECTED ENVIRONMENT

A. SOCIAL AND ECONOMIC CHARACTERISTICS III-1
1. Land Use III-2
2. Demographic and Social Characteristics III-7
3. Economic Characteristics III-13

B. NATURAL ENVIRONMENT III-19
1. Air Quality III-19
2. Water Quality III-20
3. Geology III-25
4. Water Bodies III-40
5. Terrestrial Communities III-48
6. Historic and Archaeological Resources III-55
7. Hazardous Waste Sites III-77
8. Visual Quality III-78
9. Noise Quality III-80
10. Public Lands III-84

C. REFERENCES III-86

CHAPTER IV - ENVIRONMENTAL CONSEQUENCES

A. LAND USE IMPACTS IV-2
1. "No-Build" Alternative IV-3
2. Expressway/Freeway Alternatives IV-3

B. FARMLAND IMPACTS IV-12
1. "No-Build" Alternative IV-14
2. Expressway/Freeway Alternatives IV-14
3. Form SCS-CPA-106 Results IV-16

C. SOCIAL IMPACTS IV-16
1. Social Interactions and Communities IV-16
2. Environmental Justice IV-17

D. RELOCATION IMPACTS IV-18

E. ECONOMIC IMPACTS IV-21
1. Definition of Economic Development IV-21
2. Economic Impact Evaluation IV-23
3. Economic Development Impact Types IV-25
4. Estimated Economic Development Impact IV-29

F. JOINT DEVELOPMENT IV-34
1. "No-Build" Alternative IV-35
2. Expressway/Freeway Alternatives IV-35

G. PEDESTRIAN AND BICYCLIST CONSIDERATIONS IV-35
1. "No-Build" Alternative IV-35
2. Expressway/Freeway Alternatives IV-35

H. AIR QUALITY IMPACTS IV-36
1. Methodology IV-36
2. Air Pollution Emission Levels IV-37
3. Construction IV-38
4. Compliance IV-38

I. NOISE IMPACTS IV-38
1. "No-Build" Alternative IV-40
2. Expressway/Freeway Alternatives IV-42
3. Construction Noise IV-45
4. Mitigation Summary IV-46

J. WATER QUALITY IMPACTS IV-47
1. "No-Build" Alternative IV-47
2. Expressway/Freeway Alternatives IV-47

K. PERMITS IV-48
1. "No-Build" Alternative IV-48
2. Expressway/Freeway Alternatives IV-48

L. WETLANDS IV-50
1. "No -Build" Alternative IV-50
2. Expressway/Freeway Alternatives IV-51
3. Project Implications and Recommendations IV-56

M. WATER BODY MODIFICATION AND WILDLIFE IMPACTS IV-56
1. "No-Build" Alternative IV-57
2. Expressway/Freeway Alternatives IV-57

N. FLOODPLAIN IMPACTS IV-61
1. "No-Build" Alternative IV-62
2. Expressway/Freeway Alternatives IV-62
O. IMPACTS TO TERRESTRIAL COMMUNITIES IV-65
1. Natural Communities IV-65
2. Endangered, Threatened and Rare Species IV-67

P. HISTORIC AND ARCHAEOLOGICAL INVESTIGATION IV-69
1. "No-Build" Alternative IV-71
2. Expressway/Freeway Alternatives IV-71
3. Results of Determinations of Effect IV-73
4. Results of the Phase II Investigations IV-73

Q. HAZARDOUS WASTE SITES IV-74
1. "No-Build " Alternative IV-74
2. Expressway/Freeway Alternatives IV-74

R. VISUAL IMPACTS IV-78
1. "No-Build" Alternative IV-78
2. Expressway/Freeway Alternatives IV-78

S. ENERGY IV-81

T. CONSTRUCTION IMPACTS IV-82

U. RELATIONSHIP OF LOCAL SHORT-TERM USES VERSUS LONG-TERM PRODUCTIVITY IV-83
1. "No-Build" Alternative IV-83
2. Expressway/Freeway Alternatives IV-84

V. IRREVERSIBLE AND IRRETRIEVABLE COMMITMENT OF RESOURCES IV-84
1. "No-Build" Alternative IV-84
2. Expressway/Freeway Alternatives IV-84

W. PUBLIC LANDS IV-85
1. KATY Trail State Park IV-85
2. Bethlehem Wildlife Management Area IV-87

X. REFERENCES IV-89

CHAPTER V - LIST OF PREPARERS

A. MISSOURI DEPARTMENT OF TRANSPORTATION V-1

B. CONSULTANT TEAM V-2

C. FEDERAL HIGHWAY ADMINISTRATION V-3

D. U.S. ARMY CORPS OF ENGINEERS V-4

CHAPTER VI - CIRCULATION LIST

A. FEDERAL VI-1

B. STATE VI-3

C. LOCAL VI-4

D.. COPIES AVAILABLE FOR PUBLIC VIEWING VI-6

CHAPTER VII - COMMENTS AND COORDINATION

A. PUBLIC INVOLVEMENT VII-1
1. Pre-Location Public Meetings VII-1
2. Public Open Houses VII-3
3. Other Meetings VII-4
4. Location Public Hearing VII-4
5. Corridor Advisory Council VII-5
6. Newsletter VII-7
7. Public Meeting Notices VII-8
8. Media Releases and Briefings VII-9
9. Project Telephone Line VII-9
10. Project Mail Box VII-9

B. AGENCY COORDINATION VII-10
1. Environmental Scoping Meeting VII-10
2. NEPA/CWA Merged Process VII-13

C. AGENCY REVIEW OF DRAFT EIS VII-14
1. Introduction VII-14
2. Methodology of Response to Comments VII-14
3. Summary of Public Agency Comments VII-15
4. Agency Comment Letters VII-17
5. Responses to Agency Comments VII-47

CHAPTER VIII - INDEX

APPENDICES

A Design Criteria
B Evaluation Tables
C Plan Plates
D Demographic Data (available upon request)
E Wetlands Technical Memorandum
F Hazardous Waste Investigations (available upon request)
G Visual Quality Assessment (available upon request)
H Farmland Assessment
I Section 404 Permit Application
J Project Correspondence
K Generalized Responses to Public Comments

LIST OF TABLES

page

Table I. D.1-1
Statewide Average Accident Rates (1992 through 1996) I-7
Table I.D.1-2
Accident Statistics by Type (1992 through 1996) I-9
Table I.D.2-1
Accident Numbers - Year 2022 No-Build Condition I-10
Table I.D.3-1
Accident Numbers - Year 2022 Build Condition I-11
Table I.D.4-1
Projected Accident Cost Savings - Four Lane Expressway Year 2022 ..... I-12
Table I.F.1-1
Typical Two-Lane Rural Highway Service Volumes I-15
Table I.F.2-1
Traffic Service of No-Build Condition I-16
Table I.F.6-1
Average Daily Time Savings - Year 2022 ..... I-18
Table I.F.6-2
Typical Four-Lane Expressway Service Volumes I-18
Table I.F.6-3
Traffic Service of Proposed Expressway I-19
Table I.F.6-4
Interchange Locations and Warrants I-20
Table I.G-1
Average Economic Development Benefits I-22

Table II.B.2-1
Baseline Measures of Effectiveness
Lafayette, Johnson and Henry Counties
Years 1992 and 2022 ..... II-4
Table II.B.3-1
Projected Cost Increases
Years 1992 to 2022 ..... II-4
Table II.E.4-1
Measures of Effectiveness by Alternative
Route 13 Corridor
Year 2022 ..... II-21
Table II.E.5-1
Capital and Maintenance Cost Summary II-23
Table II.E.5-2
Residual Value Estimates II-24
Table II.E.5-3
Estimated Annual Vehicle Operating Cost Savings II-24
Table II.E.5-4
Estimated Travel Time Savings II-25
Table II.E.5-5
Estimated Accident Cost Savings II-26

Table II.E.5-6
Travel Efficiency Feasibility II-27
Table II.E.6-1
Evaluation Factors II-28
Table II.F.6-1
Interchange Locations on Preferred Alternative II-35
Table II.H-1
Summary of Construction Costs - By Project II-41
Table II.H-2
Generalized Cost Summary of Retained Alternatives II-43

Table III.A.2-1
Population Comparisons III-8
Table III.A.3-1
Income Characteristics III-15
Table III.A.3-2
Median Housing Values III-17
Table III.A.3-4
Lafayette County Assessed Value Summary III-18
Table III.A.3-5
Johnson County Assessed Value Summary III-18
Table III.A.3-6
Henry County Assessed Value Summary III-19
Table III.A.3-7
Assessed Value Summary III-19
Table III.B.1-1
Missouri and National Ambient Air Quality Standards III-20
Table III.B.2-1
Classifications and Use Designations of Lakes within the Corridor III-22
Table III.B.2-2
Classifications and Use Designations of Lakes
Which Have Numerous Tributaries within the Corridor III-22
Table III.B.2-3
Classifications and Use Designations of Streams and Rivers III-22
Table III.B.5-1
Natural Features Inventory III-50
Table III.B.5-2
Endangered, Threatened and Rare Species III-54
Table III.B.6-1
Number of Previously Recorded Archaeological Sites
within the Limits of the Study Corridor III-58
Table III.B.6-2
Previously Recorded Archaeological Sites
within the Limits of the Study Corridor III-58
Table III.B.6-3
Previously Reported Archaeological Site Density by County III-62
Table III.B.6-4
Predictive Archaeological Model for High, Medium and Low Probability of Number
of Areas and Number of Hectares (Acres) for Archaeological Sites III-62

Table III.B.6-5
Summary of Archeological Resources III-63
Table III.B.6-6
Previously Listed National Register of Historic Places Properties
within the Limits of the Study Corridor III-66
Table III.B.6-7
Architectural Resources Recorded along Alternative Alignments III-66
Table III.B.6-8
Route 13 and Route 7 Bridge Structures with Known Dates III-70
Table III.B.6-9
Route 13 and Route 7 Bridge Resources by Span or Culvert Type III-71
Table III.B.8-1
Visual Quality Rating III-79
Table III.B.8-2
Views from the Road and Relative Concentration of Visual Receptors III-80
Table III.B.9-1
Typical A-Weighted Sound Levels in Indoor and Outdoor Environments III-82
Table III.B.9-2
1993 and 2022 L_{eq} Peak Hour Existing Noise Levels (dBA) III-83

Table IV.B-1
Farmland within Alternative Corridors
Corridor Width 183 Meters (600 ft.) IV-12
Table IV.D-1
Potential Displacements for Expressway/Freeway Alternatives
Based on 183 Meter (600 ft.) Band IV-21
Table IV.D-2
Potential Displacements for Alternative A
Based on Typical Right of Way Width IV-21
Table IV.E.1-1
Estimated Project Cost IV-22
Table IV.E.4-1
Highway Construction Economic Development Impacts
(1994 dollars) IV-30
Table IV.E.4-2
Increased Competitive Position Economic Development Impacts
(1994 dollars) IV-31
Table IV.E.4-3
Lost Farmland Production Economic Development Impacts
(1994 $1,000 of dollars) IV-34
Table IV.H.2-1
Percent Difference from 2022 "No-Build" Alternative IV-37
Table IV.I-1
Noise Abatement Criteria
Hourly A-Weighted Sound Level - Decibels (dBA) IV-39
Table IV.I-2
Projected Peak Hour Noise Levels for Alternatives IV-41
Table IV.I-3
Construction Equipment Sound Levels IV-46

Table IV.L.3-1
Summary of Potential Wetland Impacts as Shown in DEIS Corridor Width 183 Meters (600 ft.) IV-52
Table IV.L.3-2
Potential Jurisdictional Wetlands for Proposed Action PONDS and STREAMS IV-54
Table IV.L.3-3
Potential Jurisdictional Wetlands for Proposed Action WETLANDS IV-55
Table IV.L.3-4
Total Potential Jurisdictional Wetland Impacts by Wetland Classification in hectares (acres) IV-55
Table IV.M-1
Fish Fauna and Associated Streams IV-59
Table IV.N-1
Floodplain Impacts for Expressway/Freeway Alternatives IV-62

Table VII.A.5-1
Route 13 Corridor Advisory Council Membership List VII-5
Table VII.A.10-1
Route 13 Project Response Card VII-10

Exhibits are to be found at the end of each respective Chapter.

exhibit no.

SUMMARY

S-1 Study Corridor
S-2 System Improvements
S-3 Regional Transportation System
S-4 DEIS Preferred Alternatives
S-5 Preferred Alternative

CHAPTER I - Purpose of and Need for Action

I.A.3-1 Merged NEPA/Clean Water Act Process Flow Diagram
I.B-1 Study Corridor
I.B.1-1 Regional Transportation System
I.B.1-2 System Improvements
I.B.3-1 Typical Sections
I.E-1 Geometric Sufficiency
I.F.2-1 Historical Daily Traffic Volumes by Highway Segment (1985-1993)

CHAPTER II - Alternatives

II.B.2-1 Year 1992 Average Annual Daily Traffic - "No-Action" Alternative
II.B.2-2 Year 2022 Average Annual Daily Traffic - "No-Action" Alternative
II.E.2-1 Identification of Alternatives
II.E.3-1 Results of Screening
II.E.4-1 Traffic Forecasting Model Flow Diagram
II.E.4-2 Historical Daily Traffic Volumes by Highway Segment (1985-1993)
II.E.4-3 Estimated Total Daily Traffic Volumes by Highway Segment - Base Case Alternative (1993-2022)
II.E.4-4 Year 2022 Average Annual Daily Traffic - Higginsville
II.E.4-5 Year 2022 Average Annual Daily Traffic - Warrensburg
II.E.4-6 Year 2022 Average Annual Daily Traffic - Clinton
II.E.6-1 Alternatives Considered in Evaluation
II.F.4-1 DEIS Preferred Alternatives
II.G-1 Index of Areas of Change
II.G-2 Area of Change

CHAPTER III - Affected Environment

III.A.1-1 Generalized Existing Land Use - Higginsville
III.A.1-2 Generalized Existing Land Use - Warrensburg
III.A.1-3 Generalized Existing Land Use - Clinton
III.A.1-4 Generalized Future Land Use - Higginsville
III.A.1-5 Generalized Future Land Use - Warrensburg
III.A.1-6 Generalized Future Land Use - Clinton
III.A.2-1 Future Growth Projections - Higginsville/Lafayette Co.
III.A.2-2 Future Growth Projections - Warrensburg/Johnson Co.
III.A.2-3 Future Growth Projections - Clinton/Henry Co.
III.B.3-1 Geologic Conditions Map
III.B.3-2 Prime Farmland
III.B.4-1 Floodplains

III.B.4-2 Wetlands
III.B.5-1 Natural Environmental Constraints
III.B.6-1 Cultural Resources Investigations
III.B.7-1 Hazardous Waste Sites
III.B.8-1 Agricultural Land
III.B.8-2 River and Creek Valleys
III.B.8-3 Forest and Strip Mines
III.B.8-4 Lake Environments
III.B.8-5 Cities and Towns
III.B.8-6 The Residential Environment
III.B.8-7 Visual Assessment Units
III.B.10-1 Public Lands

CHAPTER IV - Environmental Consequences
IV.A.2-1 Land Use Impacts - Higginsville
IV.A.2-2 Land Use Impacts - Warrensburg East
IV.A.2-3 Land Use Impacts - Warrensburg West
IV.A.2-4 Land Use Impacts - Clinton
IV.E.3-1 Competitive Position Principles
IV.W-1 KATY Trail State Park Crossing
