

## **Cost Participation Program**

Sometimes MoDOT works on projects and local entities decide they would like to make some project-related improvements or enhancements at the same time. For this type of situation, MoDOT offers the Cost Participation program. Eligible entities can save on contractor mobilization and other costs by partnering with MoDOT. For more information, please contact your local district office. Locations and phone numbers for all the local district offices are listed under the “Contact Us” tab on the left side of this website.
