Section 104.515(4). RSMo 2000, as amended (2002) —Special consultants, duties, compensation, benefits.

The Commission considered contributing to a medical insurance plan as early as May 10, 1927, and the next year (March 13, 1928) the Commission authorized the employees to form groups or associations among themselves to secure insurance at group rates with no financial participation by the Commission. It would be 50 years later before the Commission participated financially in this benefit. On October 15, 1975, the Commission authorized a study of hospital and life insurance programs in an effort to develop a program offering optimum benefits at minimum cost. In 1977 legislation was enacted which authorized the Commission to subsidize the life and health insurance programs of each employee who was a member of the Department's retirement system. The Commission established a Board of Trustees on November 9, 1977, and provided guidelines for its use in administering the new Medical and Life self-insurance plan. The new plan became effective February 1, 1978. Legislation enacted in 1982 allowed state participation in the cost of medical insurance for retirees by deeming them special consultants. Subsequent Commission action and/or legislation extended the subsidy to dependents (August 3, 1990), surviving spouses and dependents of employees who lost their lives as a result of a traumatic injury incurred on the job (September 8, 1993), work-related disability recipients (legislation—1995), long-term disability recipients (September 5, 1997), survivors of employees/retirees (September 7, 2001), and spouses of members who have Medicare as their primary coverage (September 7, 2001).

As allowed by Missouri statutes passed in 1985, the Commission elected to provide its employees with \$15,000 life insurance at no cost to the employee and to establish an optional life insurance

program offering life insurance to the employee at the employee's expense. Effective January 1, 2001, the statutes allowed an increase in coverage from \$15,000 to one times the employee's annual base pay at no cost to the employee. The optional life insurance program allows an employee to purchase the following coverage: (1) up to six times the amount of the employee's annual salary (maximum of \$800,000); (2) from \$15,000 to \$100,000 for the employee's spouse (but not to exceed the employee's coverage amount); and (3) \$15,000 for the employee's dependents. Closed plan retirees may retain up to \$60,000 in optional life insurance coverage for the retiree and his/her spouse at the expense of the retiree. The Year 2000 plan retirees may, at their expense, continue the amount of insurance carried prior to retirement until age 62, when coverage is reduced to a maximum of \$60,000. Those who retired after September 28, 1985, other than those entitled to a deferred normal annuity (terminated vested members), receive a \$5,000 death benefit at no cost to the retiree.

As allowed under Sections 104.270 and 104.1072, RSMo 2000, as amended, a Medical and Life Insurance Plan has been established for employees, retirees, and deferred annuitants of the MoDOT and Patrol Employees' Retirement System (MPERS) and their dependents. A Commission-appointed Board of Trustees administers the Medical and Life Insurance Plan in keeping with the Board guidelines approved by the Commission.

- The Commission currently subsidizes the cost for the employees, retirees, disability recipients, survivors of employees and retirees, and spouses and/or dependents of employees and retirees.
- The Commission approves the employer contribution to the Medical and Life Insurance Plan. The contributions are subject to the financial resources deemed by the Commission to be appropriate for this employee benefit and the Commission's financial situation. Effective January 1, 2015, and extending until such time as the Commission determines it to be prudent to increase or decrease its share of the total medical insurance plan premium, the following percentages of employer participation will apply:
 - **Active employees and Work Related Disability Recipients** - (all rate categories): 80 percent.
 - **Retirees who retire on or after January 1, 2015:** Two percent per full year of creditable service in the retirement system capped at 50 percent. The percentage will be applied to the premium applicable to the rate category in which the retiree is enrolled.
 - **Retirees who retired or will retire prior to January 1, 2015:** Employer percentage of total premium will be the same percentage in effect for calendar year 2014, as shown below.

Employees terminating employment who are not participants in the Medical Insurance Plan at the time their employment ends or who after their employment ends allow their coverage to lapse will not be permitted to reacquire coverage through the Medical Insurance Plan. Former employees who regain employment are entitled to coverage in the Medical Insurance Plan.
- Benefit provisions are in keeping with the most current Medical and Life Insurance Plan document.
- An open enrollment period will be offered to employees every two years.
