

Instructions for Merging Reference Files

<p>1. Select the References icon.</p>	
<p>2. Select all reference files except the border sheet. Do not select the border sheet or all plot properties will be lost.</p>	
<p>3. Select the <u>T</u>ools menu and then select the Merge <u>I</u>nto Master option.</p> <p>A window containing merging options will appear. Don't select any of the options. Click on the drawing to initiate the merging process.</p>	
<p>4. Select <u>O</u>K at the final alert window.</p>	
<p>5. The merge is complete. Please note that the border sheet is the only remaining referenced file. If the border sheet is not still referenced, use the Undo tool to go back to Step 2 and make sure not to select the border sheet.</p>
