RE: Addendum 2 - Bid 17-149 - Mexico Road Resurfacing Phase II, Federal Project No. STP 5655 (611)

To all Contract Bidders of Record,

This Addendum, consisting of thirteen (13) pages, is issued to answer questions received, modify, explain, or correct the original contract documents as noted below, and is hereby made a part of the contract documents.

Question:

1. Addendum No 1 has a total of 3 ea Controller shows on Line 63 for Pay, I believe this is in error. Line No 63 should have a total of one (1) controller w/o BBU, the BBU for this controller is located on the Combination Signal/Lighting Power Supply, Line 55. Line 54 should be a total of two (2) Controllers w/BBU, mounted on the Signal Controller. This will make a Total of 3ea Controllers form the Job.
 - Upon further review, the department believes the above statement is correct and line item 63 should be quantity 1. The plan sheets are correct contrary to Addendum 1. Please omit answer 2 from Addenda 1. The correction is in the revised bid proposal starting on page 3 of this document.
2. In regards to the project above, are there any union requirements?
 - This contract requires payment of the prevailing hourly rate of wages for each craft or type of work required to execute the contract as determined by the Missouri Department of Labor and Industrial Relations, and requires adherence to a schedule of minimum wages as determined by the United States Department of Labor. For work performed anywhere on this project, the contractor and the contractor's subcontractors shall pay the higher of these two applicable wage rates. The applicable state wage rates for this contract are detailed in "Annual Wage Order No. 23", that is attached to this bidding document. The applicable federal wage rates for this contract are the effective Davis-Bacon federal wage rates posted the tenth day before the bid opening date and are attached herein.
 - These supplemental bidding documents have important legal consequences. It shall be conclusively presumed that they are in the bidder's possession, and they have been reviewed and used by the bidder in the preparation of any bid submitted on this project.
3. Is there an estimated value for the project?
 - The estimated value of the project is 1,686,704.00.
4. Is the bid date and time still set for March 30 at 2:00 pm?
 - Yes, as of today there are no plans to reschedule the bid opening time or date.
