

Job No. J6I2020  
Route 64  
St. Louis City

**J6I2020: Questions from Constructability Review      3/9/2011**

1. Q: Can glass fibers be used instead of synthetic?  
A: This issue will be re-visited.
  
2. Q: Need to review towing specs. Is this even legal? Has it been used before?  
A: This issue will be re-visited.
  
3. Q: Will the contractor be charged a day for local events when work is not allowed?  
A: No.
  
4. Q: Can the road be closed completely during the length of construction?  
A: No.
  
5. Q: Will the sign-in sheet be made available?  
A: Yes, it will be placed on the INDOX website
  
6. Q: Can work begin prior to April 2012?  
A: Currently the specifications allow only field measurements and coring to take place prior to April 2012 to avoid conflict with other projects. This will be re-visited.
  
7. Q: What is the DBE percentage? This is speciality work and DBE percentage should reflect that.  
A: DBE percentage has not been determined, but will be prior to the pre-bid meeting.
  
8. Q: When is the pre-bid meeting?  
A: May 4 at 9 am at MoDOT's Transportation Management Center (TMC) in Chesterfield.
  
9. Q: Can ready-mix trucks be used for LMC?  
A: Yes, provided all requirements are met.
