The City of Ellington has looked at existing manhole where hookup of sewer line from MODOT Property will need to cut two(2) bottom steps off the inside of manhole. Then make hole to run six (6) inch sewer line from MODOT to our existing manhole. The sewer line will be run to center of manhole to where invert starts in middle of manhole to run out outlet in manhole. Any questions you can call me at 573-604-1607 that is my cell phone number.
