# QUOTATION TABULATION

General Services  
(Procurement) Division

Thank you for your response to our Request for Quotation # D210-057-R2. For your information, the following is a tabulation of all responses which were received. This quotation was awarded to: **K&K Systems, Inc.** If you have any questions, please contact me at the address/phone number shown above. William D. "Bill" Noyes, CPPO, CPPB, Senior Procurement Agent

Solar Flashing Beacons with black polycarbonate signal heads with LED's (Light Emitting Diode) and 12-inch lenses in both amber and red (as detailed below). Units are to be self-contained, single beacons with compact solar panels mounted on top of the signal head and shall include <u>batteries &amp; electronics mounted inside the solar panel housings or signal head</u> . Batteries shall be field replaceable, and have a 3-5 year service life. The charged capacity shall operate at a rated usage for 30+ days without solar recharging. Units are to provide a 24-hour continuous flash at a standard MUTCD rate of 1/2 second on and 1/2 second off. Units must meet MUTCD and ITE specifications and be able to withstand and operate at temperature extremes ranging from -40 degrees F (or lower) to +122 degrees F (or higher). Units shall include powder-coated black hardware materials for mounting units on the type/size of posts detailed below and shall be adjustable independently from the brackets for lens/solar panel alignment.
