Training and Support

Basic Forensic Mapping Class using Total Station, Data Collector, Evidence Recorder Software and MapScenes Forensic CAD \$875 per student
This course is a 40 hour course over five days.

The instructor has prior law enforcement experience including over 10 years experience with more than six years in forensic mapping. The instructor has testified in federal, state and/or local courts regarding the forensic mapping concept.

The instructor is ACTAR certified and has experience in training federal, state and/or local law enforcement officer on a regional basis for forensic mapping concepts.

The training facility shall be furnished by the state agency. The instructor will include training material in paper or digital formats necessary for forensic mapping for each trainee.

Support by email or telephone is provided 24/7 by toll free number when equipment and training is purchased together.

Trade Ins

The Trade In value of any equipment is not established until the item is catalogued by Make/Model, Serial number, photographed and finally inspected onsite at CSI Mapping 16015 Metcalf Ave Suite 300 Overland Park KS.
