

November 18, 2014

Thank you for your response to our Request for Bid KC-B15-014 **Snow Removal Assistance Equipment with Operators**. For your information, the following is a tabulation of all responses which were received.

Award of this bid will be an open price contract based on location, price and availability.

If you have any questions, please contact me at 816-347-4111.

Buyer: Judy M. Franke, CPPB

(See Attachments)

ITEM #1: Motorgraders

Provide the requested information for each piece of equipment you could have available when called upon, for each maintenance area you could provide service in (you do not have to bid all areas).

The hourly rates bid are to include mobilization costs (the cost of getting to and from the work area). (...beginning when the equipment leaves its place of origin until the job is complete & the equipment is returned)

Please indicate if the motorgrader could have a wing plow available, and if that could be a right wing or left wing.	No Wing Plow

TE701 - TE801

(Click any image below to enlarge)

General Specifications:

TE701 - 70,000 lbs. Distributed /
40,000 lbs. Concentrated in 10'

TE801 - 80,000 lbs. Distributed /
50,000 lbs. Concentrated in 10'

Dimensions:

- Overall Length: 40' to 53'
- Main Bed Length: 28'-5" to 41'-5"
- Upper Deck Length: 112"
- Width: 8'-6"
- Approach Ramp: Steel knife edge
- Loaded Deck Height: 37"
- Axle Slide on 44' to 47': 13'
- Axle Slide on 48' to 53': 15'
- Swing Clearance: 80"
- King Pin Setting: 18"

Load Angle: 6-3/4 to 8 degrees.

Frame: All hi-tensile steel I-beams. 4 Beam design.

Platform: 1-1/2" Oak decking with crossmembers on 12" centers.

Stakepockets: On 4' centers with 4 Gotcha's across the rear.

Operation: The main bed is tilted hydraulically and the hinged slope forms a straight ramp to the upper deck which remains flat on the fifth wheel at all times.

Axles: (2) 22,500 lbs.

Brakes: S-Cam air brakes activated 12-1/4" x 7-1/2". ABS with auto slack adjusters and spring brakes on all axles.

Wheels: (8) 6.75 x 17.5 10-Hole steel disc.

Tires: (8) 235/75R x 17.5 radials.

Park Stands: Two-speed landing gear.

Suspension: Air-ride.

Electrical: ICC DOT standard sealed light system with midship turn signal.

Winch: 12,000 lb. hydraulic with cord type remote control.

BUYER: JUDY FRANKE, CPPB

MORE OPTIONS AVAILABLE -- CONSULT FACTORY					

ITEM #8: Tractor-Trailer Unit (Salt Hauler)
ITEM #8A: Multi Spreader Unit (Salt Spreader/Hauler)

Tractor-Trailer Units (Salt Hauler) must be capable of carrying at minimum 25 tons of salt with the purpose of transporting the material from one MoDOT facility to another. Bid at an hourly rate (instead of mileage-based) due to variable times and speed associated with use of this equipment in salt hauling operations between sheds.

Provide the requested information for each piece of equipment you could have available when called upon, for each maintenance area you could provide service in (you do not have to bid all areas).

The hourly rates bid are to include mobilization costs (the cost of getting to and from the work area). (...beginning when the equipment leaves its place of origin until the job is complete & the equipment is returned)

STANDBY TIME: Hourly rate standby time after call-out, if staging of equipment in anticipation of upcoming winter weather is required.				\$40.00	\$100.00
OPERATOR TRAINING: Provide an hourly rate for Operator Training.				\$40.00	\$50.00

Unit will throw to 100' from rear bumper, with aid of power drive Super Shield.

A. Allows discharge of bulky materials such as topsoil, sand, road-base, bark, etc. Materials up to 6" diameter can be discharged,

B. 21" wide belt, 17" wide opening, allows 21 tons to be discharges in 4 minutes,

THE ONLY MACHINE THAT WILL SPREAD BOTH TOPSOIL & AGGREGATE

In minutes, one operator can unload and spread material in diffi cult, 'hard to reach' areas. Used by quarry operators, haulers, landscapers, contractors, and many others.

Advantages

- Patened Load Suspension Beam
- Lowest Centre of Gravity in the Market
- Can spread material up to 100' from rear of truck
- Ability to Control unloading (front to rear) or opposite
- Constantly throws aggregate, mulch, soil, sand, etc.
- Slinging costs lower than manual labor

Features

- Full control of Patented Load Suspension Beam
- Variable Speed Conveyor Controls
- Ability to break clumps / no bridging
- Plastic liner inside box to help load release

Options

- Wireless Radio Remote, Spreader & Chassis
- Electric Flop Tarp c/w Aluminum Arms
- Super Shield™, Friction and/or Power Drive
- Aluminum Fenders
- Planetary Drive Swing Frame
- Additional Customizations/Options Available

Main Conveyor

Removable for ease of belt replacement

- 21" wide x 24' long
- Horizontal rollers with UHMW troughing strips
- Variable speed 0-240 fpm approximately
- Endless, rubber back belt
- Direct drive hydraulic motor

Throw Conveyor

Super shield attachment with friction or power drive

- 14" wide x 19' long
- 35 degree troughing idlers
- Endless belt with raised chevron pattern
- Dual racking swing frame
- Option to full rotation planetary drive

Capacity: 19 cubic yard

Hydraulic System and Controls

- Standard upper operating platform
- Mechanical valves standard with options to full radio remote
- Super heavy duty PTO
- Vickers Vane tandem pump
- Stainless steel pressure lines
- Temperature controlled oil cooler

Box Construction

- Full plastic hopper liner
- 4 way interior load suspension beam
- Formed plate sides with box-style columns

Minimum Platform Dimensions

- MC21 - 284"

BUYER: JUDY FRANKE, CPPB

ITEM #9: Escort Vehicles

Provide the requested information for each piece of equipment you could have available when called upon, for each maintenance area you could provide service in (you do not have to bid all areas).

The hourly rates bid are to include mobilization costs (the cost of getting to and from the work area). (...beginning when the equipment leaves its place of origin until the job is complete & the equipment is returned)
