The contractor shall also review the work operations, which contributed directly to the disruption of traffic flow, and make adjustments to the operations to prevent queues from occurring again. If it is determined that disruption of the traffic flow in queues of 15-minute delays or longer is unavoidable during the day, the contractor will be required to work during night hours.

Night work is acceptable at all locations but is not a direct pay item. Proper lighting will be required if the contractor works during night hours. Proper traffic control and safety apparel is required at all times.
