**QUESTION #1:**

Regarding the Addendum for this bid, did you want to use the same specs for the 2011 Chevy platform bed for the spreader controls, I.E. ground speed, enclosed manifold, data logging etc?

**ANSWER:**

Yes, same specs to operate the spreader controls for the retrofit systems.

**QUESTION #2:**

Also do you want to convert the hoist control to electronic or manual?

**ANSWER:**

MoDOT is requesting pricing for either electronic or manual, as retrofitting some of the trucks may not even require changes to the hoist controls. MoDOT wanted to make vendors aware that some of the retrofit trucks may have hoist controls in case this would cause a price issue.
