INFORMAL QUOTE GUIDELINES AND DOCUMENTATION**

REQUEST FOR QUOTATION

It is the vendor's responsibility to read and comply with all conditions, specifications, and instructions outlined in this document. This document and any subsequent attachments shall supersede all confirmation forms, receipts, or any other paperwork needed to secure materials, equipment, or services.

TODAY'S DATE: SEPTEMBER 9, 2009	QUOTE DUE BY (DATE AND TIME): SEPTEMBER 30, 2009 @ 10:00 AM CENTRAL TIME	F.O.B. REQUIREMENTS: DESTINATION (SEE PROJECT LOCATIONS BELOW)
CONTRACT PERIOD: NOVEMBER 1, 2009 THROUGH OCTOBER 31, 2010	QUOTATION # D610-046-RB THIS QUOTATION # SHOULD BE REFERENCED ON ALL MAILING LABELS, ENVELOPES, AND ANY OTHER CORRESPONDENCE.	BUYER NAME: ATHENA NANCE SR. PROCUREMENT AGENT PHONE: (314) 301-1440 FAX: (314) 301-1437
Mailing Address: (RFQ responses may be faxed) Missouri Department of Transportation – District 6 General Services (Procurement) Division 2309 Barrett Station Road Ballwin, MO 63021	Project Locations: On-call hauling services will be provided as-needed to move various materials between facilities and within MoDOT District 6 (4 counties in St. Louis Area) during the contract period (November 2009 thru October 2010)	

ON-CALL HAULING SERVICE

SCOPE OF WORK

MoDOT District 6 may find it necessary to move materials such as sodium chloride (salt), aggregates (rock), premix, haydite, sand, etc. between facilities and within MoDOT District 6 (St. Louis, St. Louis County, Jefferson County, Franklin County and St. Charles County). Therefore, we are seeking quotations from trucking companies who would have the capability of providing on-call hauling services to move materials around the district, when needed, since professional haulers should have equipment with larger hauling capacities, allowing over-the-road hauling of materials to be accomplished in a more efficient and cost-effective manner, while keeping MoDOT maintenance staff engaged in their primary job duties of road maintenance and snow removal operations.

Vendors will be paid a flat rate for each call out, as a mobilization fee, to cover the costs of putting equipment and manpower in place at the originating point and returning at the completion of the project, plus a "per mile" rate for the mileage involved in hauling materials, as described herein (origin to destination). Quoted rates will be provided on a county by county basis on the pricing page (page 2)

Award of this RFQ will not be made to a specific vendor, but all vendors who respond with pricing and other required documentation will be **pre-approved/pre-qualified**, with their pricing locked in according to their quotation responses. A haul rate chart with contact information and haul rate information will then be issued so MoDOT District 6 personnel can select from the available vendors based upon which quotation is the most economical dependent upon the specific situation, when needs for this service arise.

NOTE: Pre-approval/pre-qualification and listing on the haul rate chart, by responding to this Request For Quotation, does not guarantee any work during the contract period, if services are not needed.

When a need for this service arises, MoDOT will determine the amount of materials to be hauled from the originating county (pick up point) to the destination (delivery point) and compute the number of trips required to complete the movement (based upon an average of 25 tons per load) and the mileage involved (based upon MapQuest or similar computation method). Then, based upon the quotes received from vendors for the originating county (the county in which the pick up facility is located) and using the information on the haul rate chart (call out fees, per mile costs, response time minimum, etc.) along with mileage estimates, MoDOT will determine the "low-bidder" for each project and contact that vendor to work out the details of the specific job with the vendor (materials/tonnage requirements, # of units needed, time frame allowed for completion of work, routes and actual mileage, etc.).

Number of trucks can supply: ____			

MoDOT facilities do not have scales, so no weighing of the materials will be required. We expect haulers and MoDOT loading crews to use their knowledge of truck capacities, materials and loading capabilities to ensure trucks are loaded to capacity without exceeding legal weight limits (averaging 25 tons per load).

Demurrage:

MoDOT will be allowed one-half (½) hour for loading/unloading each truckload of material free of demurrage, from the start time agreed to between MoDOT and the vendor when services are requested. If MoDOT delays the vendor from loading/unloading material for greater than one-half (½) hour, the vendor shall be compensated at the rate of \$60 per hour, computed to the nearest 15 minutes.

However, the vendor is given the same allowance for performance and delay on the vendor's part exceeding one-half (½) hour will allow for MoDOT to be compensated at the same rate for demurrage.

It is expected MoDOT and vendors will communicate and work together if delaying situations occur.

Fluctuating market conditions/Seasonal availability changes:

Prices quoted in response to this RFQ shall be **FIRM** for the contract period. However, MoDOT District 6 recognizes current economic conditions and market fluctuations have an impact on vendor's ability to quote and lock-in pricing for this service. **Therefore, vendors will be allowed to submit revised prices to the MoDOT District 6 Procurement office, no later than 1:00 PM on the last Monday of each month.** Revisions received will go into effect the first day of the following month.

When revised prices/terms are received, an updated haul rate chart will be prepared. This will be posted when the revised prices/terms go into effect. Revised prices/terms replace previously quoted prices/terms and shall be **FIRM** for the next full month and/or for the remainder of the contract period, if no other revisions are received. We believe this is the fairest way to obtain competitive pricing while allowing vendors to account for changes in market conditions, which can affect haul rates, on a monthly basis.

- b. The Contractor agrees and understands that the contract shall constitute an assignment by the Contractor to the MHTC of all rights, title and interest in and to all causes of action that the Contractor may have under the antitrust laws of the United States or State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or produced by the Contractor in the fulfillment of the contract with the MHTC.

Cancellation of Contract

- a. The MHTC may cancel the contract at any time for a material breach of contractual obligations or for convenience by providing the Contractor with written notice of cancellation. Should the MHTC exercise its right to cancel the contract for such reasons, cancellation will become effective upon the date specified in the notice of cancellation sent to the Contractor.
- b. If the MHTC cancels the contract for breach, the MHTC reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as the MHTC deems appropriate and charge the Contractor for any additional costs incurred thereby.

Bankruptcy or Insolvency

- a. Upon filing for any bankruptcy or insolvency proceeding by or against the Contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assigned the benefit or creditors, the Contractor must notify MoDOT immediately.
