Re: Letter of Interest
LPA – Roadway Design

Dear Mr. Jacobs,

Please consider this our Letter of Interest for LPA – Roadway Design.

Prequalification
All documentation for MoDOT's Approved Consultant Prequalification List has been submitted to Sandy Riley in the Audits Division and is currently listed as pending. CMPS has been approved on the prequalification list for the past 3 years.

Workforce Diversity
Central Missouri Professional Services, Inc. (CMPS) recognizes MoDOT's desire for workforce diversity.

- The CMPS Employee Handbook addresses anti-discrimination and diversity
- Two staff members serve on technical advisory boards for design drafting and civil technologies at Linn State Technical College
- This year, the CMPS GIS Coordinator presented a GIS program at Linn State to students of the St. Louis Public Schools, Technology Scholars Academy.
- This year a CMPS project engineer made a presentation on permeable paver parking to Missouri DNR's Soil and Water Districts Commission at Lincoln University in Jefferson City.

General Experience of Firm
Central Missouri Professional Services, Inc. (CMPS) was founded in 1969 and currently has 20 full time employees working on all types of surveying projects, engineering projects and materials testing projects. The average year of service for CMPS staff is 16 years. CMPS has been involved in the development of Jefferson City and the surrounding area for over forty four (44) years. CMPS

offers GPS and conventional methods of surveying with four (4) fully equipped survey crews to meet our client's needs statewide. CMPS offers complete land surveying surveys, engineering design and drafting services, Geospacial services (GIS) and a complete material testing laboratory.

Services Offered

Surveying: Subdivisions, Property Boundary Surveys, Topographical Surveys, ALTA Land Title Surveys, GPS Control, Utility Surveys and Construction Staking

Engineering: Site Planning, Rezoning and Conditional Uses, Subdivisions, Highway and Street Design, Sanitary Sewer and Stormwater Design, Flood Plain Issues, Structures (Footings, Retaining Walls and Box Culverts), Regulatory Submittals for Corp. of Engineers, DNR and MoDOT., Railroad Design.

Materials Testing: Concrete Testing (Mix Designs, Core Extractions, Moisture Content), Earthwork Monitoring Services (Compaction Testing, Contacted Fill, Footing and Subgrade Preparation), Structural Steel (Visual, Bolt Testing, Welding Inspection)

Personnel Qualifications	Years of Experience
Larry V. Brickey, PLS	40 years
Keith M. Brickey, PLS - Principal	23 years
John B. Rockwell, PLS	16 years
Robert M. Bates, PE - Principal	39 years
Brian McMillian, PE	13 years
Paul Sampson, PE	11 years
Greg Dorge – GIS Manager / Engineering Tech	25 years
Greg Henke – Materials Testing Supervisor	28 years
Survey crew personnel - average years of experience	16 years

Past Performance – Recently Completed / In Progress Survey Projects

- City of Jefferson – Stadium Boulevard dual roundabouts connecting Hyde Park Road and Hard Rock Drive to city roadway. Stadium Boulevard is an arterial street. The connecting street serve existing commercial development to the east and expanding commercial development to the west that includes Menards and Sam's Club.

- County of Cole – Business 50 West: Work includes design for urban street cross section of 6500 feet of Business 50 West in Cole County, Missouri. Work included widening with curb and gutter, enclosed storm water systems, traffic signage and signaling, sidewalk and trail design. The area serves many retail businesses and provides access to adjoining subdivisions and a new elementary public school.

- City of Holts Summit, Missouri: Street design to service the City's new industrial park to provide for the expansion of an existing midwest food manufacturer. Project was partially funded by CDBG. Work included 32 foot wide street with curb and gutter, enclosed storm water systems and intersection improvements at Missouri State Route OO.

- Farmer Companies – Stoneridge Parkway - Business 50 / Missouri Boulevard: Project included widening of Missouri Boulevard with additional lanes, construction of a new signalized intersection with Stoneridge Parkway and modifications of the South Ten Mile Drive intersection.

Note: Evaluations for previous services are available at MoDOT

Insurance
CMPS meets all insurance requirements.
