

Alternatives and the Purpose and Need

To determine how well alternatives achieved the project's Purpose and Need we asked the following questions:

- Is congestion relieved?
- Are crash hot spots reduced?
- Are intersections improved?
- Is there adequate access for emergency vehicles?
- Is it consistent with the Major Roadway Plan?
- Are there connections to I-70, US 63 and Route 740?
- Is it consistent with design criteria?
- Does it provide a community gateway?
- Can it accommodate pedestrians/bicycles?
- Will it accomplish the area's growth goals?
