Coventry Missouri PPO Plan Programs

Coventry | Provider | Search

Because time is the most valuable thing you can save

www.modot-mshp-cvty.com

The online **Provider Search tool** from Coventry Health Care of Missouri, Inc. ("Coventry Health Care") is now easier than ever to use.
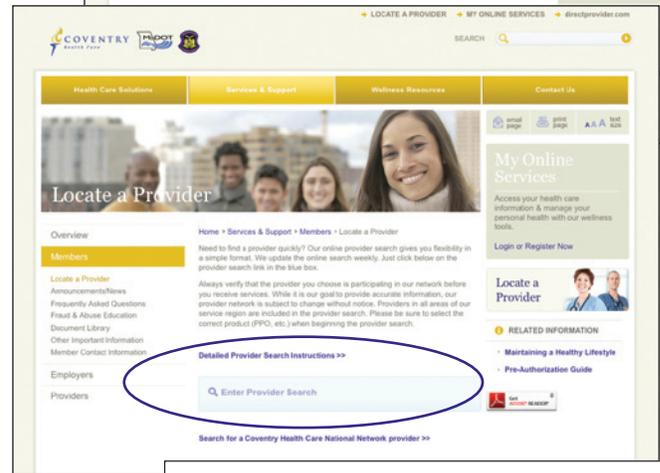

Search for physicians, hospitals, and ancillary providers such as physical therapy and urgent care facilities.

- Go to Coventry Health Care's website at **www.modot-mshp-cvty.com**.
- Click on "Locate a Provider" at the top of the page or the center button.
- Scroll down and click on "Enter Provider Search."

The next screen allows you to search for providers in a variety of ways. Search by:

- ZIP code
- Provider name, facility name, specialty or condition
- Best Match Doctor
- Predetermined options under Providers, Specialties or Conditions categories

When you enter search terms into the Search feature, matching options are presented to you as you type. For example, when typing "convenience care clinic" to search for a location near you, as you type in the letters c-o-n-v, the search term "convenience care clinic" pops up as well as other matching items such as facilities and conditions with "conv" in the name.

As you continue your search, you can further customize your results by using the **green left and right arrows** to scroll through and select additional options from the following categories:

- Distance from you
- Type of provider
- Specialty
- Accepting new patients
- Gender
- Additional language
- Hospital and physician group (search for Columbia-area providers only)

- Hospital affiliation
- Practice name
- County
- City
- Board status

Coventry Provider Search
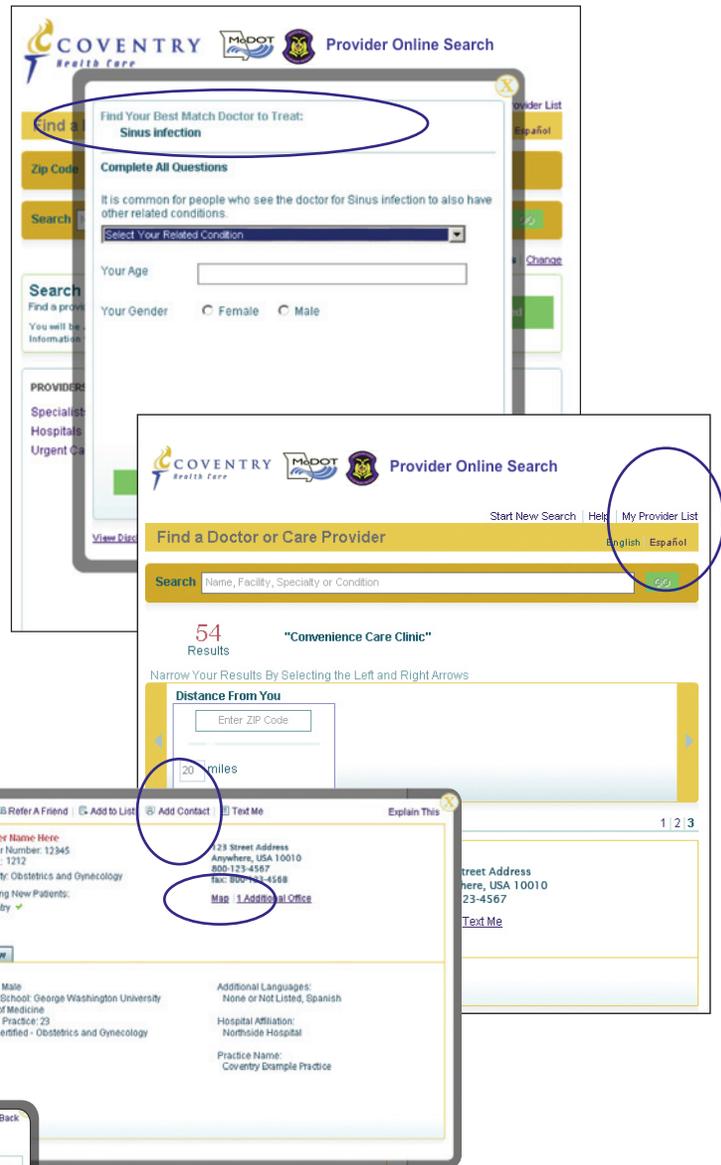

Search for your Best Match Doctor

Sometimes you want to find a provider who treats people who have your condition and who are your age and gender. Our **Best Match Doctor** feature allows you to provide information specific to your condition and narrow your results by what is important to you. You are then able to click through your results to find out additional information about the provider, including why that provider was picked as a best match.

Create a Personalized List or Directory

As you search providers, you are able to add them to your "My Provider List" and refer back to that list once you are done. The "My Provider List" is linked at the top of each search page. Once you have narrowed down your search, you are able to create your own personalized directory that is available for you to download, email or fax.

Keep your provider information for future reference

Create a vCard, a contact entry into your phone or email software. Click "Add Contact" when you pull up a specific provider listing. Pertinent data for the provider(s) you choose is downloaded directly into your application. You may also text provider information to yourself or email it to yourself or a friend.

Get directions

Obtain a map and driving directions to the provider you've selected by simply clicking the "Map" link next to your chosen health care provider.

Spend some time getting to know your member website. You may also search for providers while logged into My Online Services[SM]. You'll find that My Online Services simplifies your health care and makes it easy to make the most of your benefits. Go to our website today at **www.modot-mshp-cvty.com** and click on My Online Services to register or log in.
