

MoDOT Minute – Oct. 19, 2010

Hi. This is Sally Oxenhandler with your MoDOT Minute.

kcICON – a major highway project under construction in Kansas City - has been selected as the top road project and the fifth best bridge project of 2010 by *Roads and Bridges* magazine. The national publication praised the design-build process for providing the flexibility necessary to modernize the downtown corridor within in a tight budget. The project involves improving 4.7 miles of Interstates 29 and 35 and the construction of a new landmark, cable-stay Missouri River bridge.

This week is Teen Driver Safety Week, and MoDOT is offering young drivers and their parents a new safe driving booklet. The publication, called Road Wise, guides readers through traffic laws, lessons and practice sessions. Copies are available at Department of Revenue and Highway Patrol Driver Examination offices.

That's been your MoDOT Minute. Remember to check back every week for new information.
