

Hi, this is Sally Oxenhandler with your MoDOT Minute.

MoDOT has selected three teams to compete for the contract to replace 554 Missouri bridges under the Safe & Sound Bridge Improvement Program. The program will repair or replace 802 of Missouri's worst bridges in five years. Another 248 bridges will be fixed using the more standard design-bid-build delivery method. The three teams competing for the design-build portion of the project are Missouri Bridge Builders, KTU Constructors and Bridges Across Missouri. MoDOT expects to announce the winning team next May. More information can be found at modot.org/safeandsound.

One five-mile stretch of Interstate 64 in the heart of St. Louis opened this weekend, while a second five-mile stretch closed. Be sure to check out modot.org before traveling in this area to get the latest information on road closings and alternate routes.

That's been your MoDOT Minute. Remember to check back every Tuesday for new information.
