Dear Friends:

Greetings . . . and welcome to Missouri, the Show-Me State. We are proud of our state and its many scenic and historical treats. We urge you to let this map guide you over our more than 32,000 miles of state highways to wherever you want to go.

If you are looking for small town hospitality, the Show-Me State is the hostest with the mostest.

We can help you discover the past and explore the future. We can amuse you, entertain you or thrill you under the stars. We can show you how people lived here a year ago, and how we will live in the next hundred years.

Whether you are a visitor to the Show-Me State or a native, we hope you'll let us show you how to discover yourself. Have a safe and pleasant journey on our Show-Me state highways.

Sincerely,

Joseph P. Teasdale
GOVERNOR

MILEAGE CHART

To find the distance between any two points listed in the mileage chart, look for the one that comes first in alphabetical order and follow down the vertical column of figures to the space opposite the other point. At the intersection you will find the distance between the two points by the shortest route. All the distances given are for state highways or routes designated by the state highway commission. Distances to points not shown on this chart can be estimated by adding the mileage between the nearest point shown on the chart and the point in question. Example: Distance between Cameron and Kansas City is 30 miles; Cameron to Jefferson City is 120 miles; Kansas City to Jefferson City is 150 miles.
