

Commuter Lots Can Save You Time and Money

Gas prices are high.

Traffic congestion is increasing.

What can you do to make things better?

Use commuter lots and carpool.

To find the commuter lot closest to you, visit the Missouri Department of Transportation's Web site at www.modot.org or call 1-888-ASK-MODOT.

Commuter Lots Save Commuters Lots

- Carpooling can save the average driver \$300-\$1,000 per year.
- By using commuter lots, motorists can save money on vehicle operating costs including gas, oil, tires and vehicle wear.
- Fewer cars on the road mean less traffic congestion and shorter commute times.
- MoDOT offers more than 100 commuter lots throughout Missouri.
- Those lots have more than 6,000 free parking spaces for commuters statewide.
- The St. Louis district has more than 30 lots and the Kansas City district has more than 20 lots.

To find the commuter lot closest to you, visit the Missouri Department of Transportation's Web site at www.modot.org or call 1-888-ASK-MODOT.

To find a carpool, visit the Department of Natural Resources' Web site at www.morideshare.org or call 1-800-361-4827.
