

## Missouri Department of Transportation: Southeast District Meet the Management Team

*MoDOT's Southeast District is comprised of 25 counties, totaling 15,950 lane miles. MoDOT continues to be committed to providing the public with outstanding customer service, as well as a safe and modern transportation system. MoDOT designs, builds and maintains Missouri's roadways and bridges, and works to improve airports, river ports, railroads, public transit systems and bicycle travel. The agency also administers motor carrier and highway safety programs.*

## ADMINISTRATION

**Mark Shelton**  
District Engineer  
573.472.5340

As district engineer, Mark leads the district in its efforts to address the transportation needs of Southeast Missouri. Shelton has worked at MoDOT for 30 years.

**Matt Seiler**  
Asst. District Engineer  
573.472.5371

Matt directs engineering and operational activities for the district, as assigned and on behalf of the district engineer when necessary.

**Chris Rutledge**  
Asst. District Engineer  
417.252.1816

Chris works from the district's regional office and directs engineering and operational activities, as assigned and on the district engineer's behalf. He also serves as an area engineer.

**Nicole Thieret**  
Communications Manager  
573.472.6632

Nicole coordinates SE's communication, media relations and customer outreach. She also manages Customer Service and the Emergency Operations Center.

**Jon Medlin**  
Information Systems Manager  
573.472.5299

Jon maintains the district's computer infrastructure. Additionally, he strives to improve technology and educate users by providing technical information and support.

**Christine Owens**  
Human Resources Manager  
573.472.5337

Christine oversees activities regarding human resources administration, including the hiring process, promotions, employee development and monitoring employee behavior.

**Enos Criddle**  
Risk Management Manager  
573.472.5263

Enos coordinates the district's health, environmental, safety, and risk management programs. He is also the primary incident response contact for law enforcement.

**Jody Mills**  
Support Services Manager  
417.469.6222

Jody tracks the district's budget, billing and inventory to ensure financial accuracy. She also administers payroll and leave records.

# PROJECT DELIVERY

**Barry Horst**  
District Design Engineer  
573.472.5289

Barry manages the district's design, utilities and surveying resources and ensures the production of quality highway design plans that are on time and within budget.

**Eric Krapf**  
Project Manager  
573.472.5261

Eric coordinates the project development side of construction. He manages the scoping process, directs project core teams and maintains project budgets and schedules.

**Jason Williams**  
Project Manager  
573.472.5290

Jason coordinates the project development side of construction. He manages the scoping process, directs project core teams and maintains project budgets and schedules.

**Pete Berry**  
Project Manager  
417.469.6242

Pete coordinates the project development side of construction. He manages the scoping process, directs project core teams and maintains project budgets and schedules.

**Sherry Glastetter**  
Right of Way Manager  
573.472.5347

Sherry oversees the purchase of property for new projects, the disposal of excess land and property management. She works on negotiations, appraisals and relocations.

**Michael Brandon**  
Transportation Project Designer  
573.472.5282

Michael identifies and prioritizes projects for the five-year construction program, balances the construction budget, and develops both public and private partnerships.

**Andy Meyer**  
Construction & Materials Engineer  
573.472.5296

Andy manages construction and materials resources throughout the district and works with area contractors to ensure the delivery of the highest quality transportation projects.

**Ed Hess**  
District Bridge Engineer  
417.469.6284

Ed manages structures throughout the SE District. He conducts safety inspections, identifies repairs, and recommends maintenance, rehabilitation, or replacement of bridges.

## Across the State

The Missouri Department of Transportation has seven district offices, located in St. Joseph, Hannibal, Lee's Summit, Jefferson City, Chesterfield, Springfield and Sikeston. In addition, regional offices are available in Macon, Joplin and Willow Springs.

# OPERATIONS

**Jeff Johnson**  
District Maintenance  
Engineer  
417.469.6243

Jeff coordinates all roadway maintenance operations in the district, including budget, personnel and equipment distribution.

**Craig Compas**  
District Traffic Engineer  
573.472.5310

Craig plans all traffic control devices, signing, marking, signals, permits and lighting. He also serves as a coordinator for the Missouri Coalition for Roadway Safety.

**Jacky Traw**  
General Services  
Manager  
573.472.5215

Jacky provides direction and district wide oversight in areas related to equipment management, procurement, product distribution, and facilities management.

**David Wyman**  
Area Engineer  
573.421.0373

David coordinates design, construction and maintenance for the southern region of the SE district. He is committed to addressing the public's concerns and questions.

**Brian Okenfuss**  
Area Engineer  
573.225.3574

Brian coordinates design, construction and maintenance for the northern region of the SE district. He is committed to addressing the public's concerns and questions.

## Find Your Area Engineer

To make MoDOT even more accessible to the communities they serve, the department has restructured the role of the area engineer to include direct communication and interaction with each community. Area engineers can answer questions from the public, meet with media, or speak to groups and organizations about transportation in Missouri.

The goal of the area engineer is to have one person knowledgeable of and able to coordinate all department activities including design, construction and maintenance in a particular geographical area. Our area engineers are committed to addressing the public's concerns and questions involving the state transportation system as well as all modes of transportation in the area. Find your area engineer by referencing the color coded map.
