

Our mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.

The Overall Plan

The Route 67 expressway project includes constructing two additional lanes with paved shoulders as well as median crossovers to provide access along Route 67 from where the existing four-lane ends north of Poplar Bluff to Fredericktown in Madison County. This improvement was made possible through the partnership of the Route 67 Corporation, MoDOT and the U.S. Army Corps of Engineers. Funding was secured for the improvements after Poplar Bluff voters passed a tax to pay for a portion of the construction and Missouri voters passed Amendment 3.
