

# Route 364/Page Phase 3 Construction Update

MISSOURI  
DEPARTMENT OF  
TRANSPORTATION

VOLUME 14

SUMMER 2014

## KEY TRAFFIC INFORMATION

- Significant changes are coming to Route 94 and Mid Rivers Mall Drive.
- Watch for lane restrictions and flaggers directing traffic along the length of the project
- Please slow down through the work zones.

For more information,  
go to  
[www.modot.org/  
Route364](http://www.modot.org/Route364)  
or call 314-275-1500

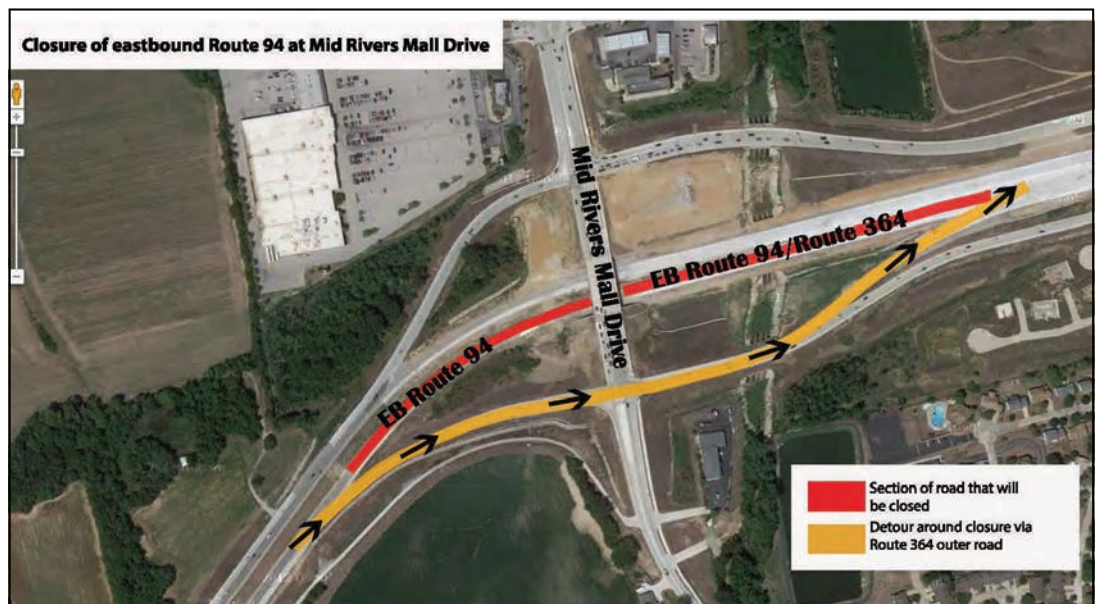

## Completion Countdown: Changes Coming to Route 94

Motorists on Mid Rivers Mall Drive will soon be shifted to the new ramp to take them to westbound Route 94. Drivers on westbound Route 94/Route 364 will be moved over to the new bridge following a weekend closure of westbound Route 94/Route 364. The opening of the new bridges will allow crews to connect the new Route 364 to the existing stretch. The date of the upcoming weekend closure will be available in the coming weeks.

Making the final connection from Route 94/Route 364 to the new Route 364/Page Phase 3 will require traffic on eastbound Route 94 to be detoured at Mid Rivers Mall Drive for about a month. Drivers will have to exit eastbound Route 94 at Mid Rivers, go through the intersection and back onto Route 94/Route 364. The exact date of the detour and further details will be available in the next few weeks.

go to  
[www.modot.org/  
Route364](http://www.modot.org/Route364)  
or call 314-275-1500

## Less Than 60 Days to Go: Interstate 64 to Route K

Mainline paving is nearly complete on Route 364 between Interstate 64 and Route K. In addition, all seven bridges on that stretch are complete. Crews will spend the remaining few weeks before the road opens adding shoulders, paving the ramps, striping the road and installing signs and traffic signals.

## Later this Fall: Route K to Mid Rivers Mall Drive Opens

Rock base has been laid on the majority of the road between Route K and Mid Rivers Mall Drive and crews will begin mainline paving in the next few weeks. Crews have nearly completed construction on the eight bridges on that section of road. The majority of prep work left is at Route 94/Mid Rivers Mall Drive, which will undergo several changes over the next few months as crews make the final connection to from Route 364/Page Phase 3 to the existing stretch of road.
