TRANSPORTATION

KEY TRAFFIC INFORMATION

- All lanes and ramps are now open.
- Route 364 email recipients will continue to be notified of any future lane closures.

All Lanes, Ramps Open on Route 364/Page Phase 3

Crews working on the Route 364/Page Phase 3 project have finished the majority of the work for the new nine-mile road. That means drivers can now use all lanes and ramps from Interstate 64 to Mid Rivers Mall Drive. However, there will still be some minor work to complete along the route, including the installation of cameras and traffic sensors in the spring of 2015.

This will be the last monthly newsletter on the project, but updates will continue to be posted at www.modot.org/Route364.

The Route 364/Page Phase 3 team would like to thank everyone for their support during the entire project. Below are some aerial photos taken of the project in October.

Route 364 and Henke Road

Route 364 and Hanley Road

Route 364 and Bryan Road

Route 364 and Route K

Route 364 and
Dardenne Creek

Route 364 and
Gutermuth Road
