

Good Morning Everyone,

My name is Tina Grothoff, I have replaced Barb Barnard, and I will be assisting The Transportation Engineer Association as their Certified Meeting Professional over The Exhibits and Partnership program. I would like to introduce myself, I have worked with the Missouri Department of Transportation for twenty-three years, and the last six years I have had the privilege to be a professional meeting planner for our General Service's Travel Services section. In 2006 I received my Certified Meeting Professional certificate (CMP). I'm very proud to say I'm the only certified meeting professional at this time planning meetings for the Missouri Department of Transportation.

If you have any questions or concerns, please don't hesitate to call or email me. I look forward to working and meeting you.

Sincerely,

Tina Grothoff
