

Missouri Route 32/Cedar Creek Bridge Replacement

West of Stockton

Project Facts:

- ◆ Replace existing bridge with new wider, longer structure over Cedar Creek
- ◆ New bridge will be 32 feet wide and 300 feet long, 12 feet wider and 12 feet longer than current bridge
- ◆ New bridge will be built on new Route 32 alignment eliminating four sharp curves approaching the bridge

Traffic Impacts:

- ◆ Route 32 will remain OPEN for most of the project, but will be closed up to two weeks near the end of the project allowing crews to build connections to new section of Route 32
- ◆ Drivers will be urged to use Missouri Route 39 and Cedar County Route K to avoid the work zone

Bridge Facts:

- ◆ Built 1930
- ◆ Approximately 1,900 vehicles per day cross the bridge
- ◆ Bridge in poor condition, requiring frequent maintenance

Construction: Summer 2019

Estimated Total Cost: \$4 million
