

Callaway County
Route M
Auxvasse Creek Bridge Redeck
Online Public Meeting
July 25, 2018

Frequently Asked Questions

What is the purpose of the online meeting?

The purpose of the online meeting is to provide information on plans to replace the bridge deck on the Auxvasse Creek Bridge on Missouri Route M, between Hatton and I-70.

Why is this work necessary?

The existing Auxvasse Creek Bridge was built in 1966 and is fifty-two years old with current weight restrictions. The condition of the bridge deck has reached a point where deck replacement is necessary. After construction, no load posting will be required.

How will traffic be affected?

During construction Route M will be closed at the bridge location for up to three months. Signs will alert motorists of the closed road but a detour will not be signed during construction. Drivers are asked to seek alternate routes around the construction.

When will the work take place?

The project is scheduled to be awarded in the fall of 2018, with construction taking place in 2019.

Will additional right of way be needed to construct these projects?

No new right of way will be required.

What will the project cost?

The total cost is approximately \$510,000.

How can I learn more?

You may learn more by contacting us toll-free at 1-888-ASK-MoDOT (275-6636) or by visiting www.modot.org/central.
