

February 26, 2019

To: Plan Holders for Improvements to Kirksville Regional Airport Kirksville, Missouri MoDOT Project No. 18-028A-1

Transmitted herewith is Addendum No. 1 to the Issued for Bid Contract Documents, Specifications, and Plans dated January 24, 2019 for improvements to the Kirksville Regional Airport Schedule I, New Fuel Facility and Access Road, including:

- Pre-Bid meeting minutes
- · Pre-Bid meeting attendance list
- Revised federal wage rates

As a reminder, bids are due Tuesday, March 5, 2019 at 3:00 PM.

Sincerely,

Jviation, Inc.

Bryan Gregory, P.E.

**Project Engineer** 

# Meeting Agenda - Minutes in Red

# **Pre-Bid Conference**

AIP Project No. 18-028A-1

Date: Thursday, February 21, 2019, 10:00 A.M.

Location: Kirksville Regional Airport

#### 1. RECORDING OF ATTENDEES

- A. Recording of attendees, firm represented, address and phone number.
- B. Meeting Minutes and Attendance list will be included as a project addendum.

# 2. INTRODUCTIONS & PROJECT DESCRIPTION

- A. Airport Representatives Glenn Balliew, Airport Director
- B. Airport Engineering Jviation, Inc. Bryan Gregory, Project Engineer
- C. Project Schedules
  Schedule I: New Fuel Facility and Access Road
- D. Major Work Items:

SUMMARY OF APPROXIMATE QUANTITIES			
ITEM NO.	ITEM DESCRIPTION	UNITS	SCHEDULE I
			ESTIMATE
GP-105a	MOBILIZATION	LS	1
P-152a	UNCLASSIFIED EXCAVATION	CY	325
P-152b	24" SUBGRADE (SEE TYPICAL SECTIONS)	SY	432
P-156a	CULVERT/INLET PROTECTION	EA	1
P-156b	SILT FENCE	LF	150
P-156c	DITCH CHECK	EA	3
MO-209a	CRUSHED AGGREGATE BASE COURSE	SY	432
MoDOT-501a	PIPE BOLLARD	EA	6
MoDOT-502a	6" PORTLAND CEMENT CONCRETE PAVEMENT	SY	432
MoDOT-502b	VARIABLE HEIGHT CURB	LF	197
MO-620a	AIRPORT TAXIWAY PAVEMENT MARKING (YELLOW)	SF	20

ITEM NO.	ITEM DESCRIPTION	UNITS	SCHEDULE I
TIEM IVO.	TIEM DESCRIPTION	011110	ESTIMATE
MO-620b	AIRPORT PAVEMENT MARKING (BLACK)	SF	30
MO-701a	6" DUCTILE IRON PIPE	LF	25
MO-701b	6" WEDGE GATE VALVE WITH INDICATOR POST	EA	1
MO-701c	12" RCP - CLASS IV	LF	50
MO-701d	12" RCP CLASS IV FLARED END SECTION	EA	2
SP-1a	ACQUIRE AND INSTALL DOUBLE-WALL 12,000-GALLON AVGAS FUEL TANK	LS	1
SP-1b	ACQUIRE AND INSTALL DOUBLE-WALL 12,000-GALLON JET-A FUEL TANK	LS	1
SP-1c	FUEL TANK FOUNDATIONS	LS	1
SP-1d	ELECTRICAL INSTALLATION FOR FUEL TANKS	LS	1
T-901a	SEEDING WITH HYDROMULCH	AC	0.5

Contingency may exist on some line items to account for unforeseen conditions. Payment will be made on actual quantities installed.

# 3. BID OPENING DATE & TIME

A. Date: Tuesday, March 5, 2019 at 3:00 P.M. (Local Time)

B. Mailed to: City Council Chambers

Kirksville City Hall 201 S. Franklin Street Kirksville, MO 63501

C. Opened at: City Council Chambers

Kirksville City Hall 201 S. Franklin Street Kirksville, MO 63501

D. Bid security: 5% of bid amount – Section 1-2, Bid Security and Section 2-1, Item 4.
E. Bid proposal: Section B (print, fill out, and submit Section B-1 thru B-21 pages).

# 4. DBE GOALS

A. 0% of Contract Amount required, but DBE participation is encouraged. DBE firms must be on the MRCC Database. Good Faith Effort documentation will be needed if you cannot meet the goal. See Section 4 – Supplementary Provisions, Part B DBE Administration for DBE Requirements.

#### 5. QUALIFICATION OF BIDDERS

A. Qualifications shall be furnished per Section 20-02 of the General Provisions and as stated in paragraph 2 of Section 2, Instructions to Bidders. Each bidder shall furnish the Owner satisfactory evidence of his or her competency and financial responsibility to perform the proposed work. This also includes resumes of key personnel, equipment list and a list detailing experience on similar construction projects. This form is relatively new. Please attempt this. We will work with the low one or two bidders on information that is still needed, but the more that can be provided up-front the better. In order to ensure timely award, additional requested information after bid should be provided within 2 business days.

# 6. CRITICAL CONTRACT DATES

A. Contract Award: April 2019.

- a. The signature of the bidder on the proposal form indicates that within thirty (30) calendar days from acceptance of its bid offer it will execute a contract with the Owner and, if indicated in this solicitation, furnish a project specific Certificate of Insurance naming the Owner as Additional Insured, furnish Performance and Payment Bonds and any other documents required by the Contract Documents.
- B. **Notice to Proceed:** Summer 2019. NTP may be phased for tank procurement.
- C. Project Time: 50 Calendar Days, complete by October 31, 2019. Calendar days can be suspended while waiting on tank placement if all work is suspended. Refer to Section 80-08 for more information. Requests for extended contract calendar days or completion date must be requested by 7:30 A.M. March 1, 2019 to Bryan Gregory, preferably by email. Any reasonably foreseen supply issue, such as steel/tank availability, should be addressed in such request with as much detail as possible. Any such requests will be considered in aggregate and if an extension is deemed necessary, would be issued via project addendum to be fair to all bidders. Statements after award that the project cannot be built in the time allotted cannot be considered without burden of proof on the Contractor that conditions have significantly changed since bidding. The October 31, 2019 completion date is more critical to the Sponsor. As such, a calendar day extension with up to 90 total calendar days will be issued in a project addendum. However, this extension will place extra burden on the contractor to work closely with the Engineer, who will be doing part-time inspection, to keep the number of inspection visits to a minimum.

#### 7. BONDING

- A. Bid Guarantee: Section 20-10, 100% 5% of Bid Amount.
- B. Payment Bond: Section 30-05 and 30-06, 100% of Bid Amount.
- C. Performance Bond: Section 30-05 and 30-06, 100% of Bid Amount.

# 8. INSURANCE REQUIREMENTS

Refer to Section 4, Part C Local Provisions, Item 12 Insurance.

#### 9. FEDERAL WAGE RATES (DAVIS BACON ACT)

A. Federal wage rates are required for this project. Refer to Section 4, Part D Federal and State Wage Rates. The higher of the State or Federal wage rates apply.

# 10. BUY AMERICAN REQUIREMENTS

A. See Section 4 – Supplementary Provisions, Part A Federal and State Provisions for Buy American Requirements. Buy American Certification is required to be submitted as part of the Bid Proposal Form. This is required. It is anticipated that waivers will need to be requested, but we will have to follow the process. Pay close attention to these sheets in the bid proposal.

#### 11. CONSTRUCTION SAFETY AND PHASING PLAN (CSPP)

- A. Construction Safety and Phasing Plan (CSPP) Refer to Appendix B.
- B. The Contractor shall review and adhere to the CSPP prepared by the Engineer.
- C. The Contractor shall submit a Safety Plan Compliance Document (SPCD) (Refer to Appendix A and B) to the engineer and airport operator for approval PRIOR to the issuance of Notice to Proceed as required by FAA Advisory Circular (AC) 150/5370-2G "Operational Safety on Airports During Construction".

# 12. LIQUIDATED DAMAGES

Section 80-08 and Section 4, Part C, Local Provisions, Item 19.

As compensation for non-use, the Contractor shall be assessed a liquidated damage of \$750/Calendar Day for each day that the work remains uncompleted beyond the contract period. As compensation for expenses incurred for unscheduled employment of the Engineer, up to \$1,800/Calendar day for the construction manager plus up to \$1,400/Calendar day for each additional resident engineer plus any incurred expenses (per diem, lodging, etc.) will be charged to the Contractor for that time which exceeds the number of Calendar Days allowed in this paragraph. However, the Engineer expects to be able to accomplish inspection on a part-time basis and will consider efforts by the Contractor to minimize inspection time before assessment of such damages. Further, each phase of work under the project has additional liquidated damage clauses, as outlined in Section 80-08 FAILURE TO COMPLETE ON TIME.

SCHEDULE	LIQUIDATED DAMAGES COST	ALLOWED CONSTRUCTION
		TIME
Schedule I	\$750 / Calendar Day	50 Calendar Days

The maximum construction time allowed for the overall project is 50 Calendar Days, with completion by October 31, 2019.

#### 13. MISCELLANEOUS

- A. The goal of the fuel system specifications is to give bidders a considerable amount of flexibility to provide a fuel system that meets all current guidelines and best practices while providing a minimum standard by which to evaluate the bids. Changes to allow for more flexibility can be considered if submitted prior to the question submittal date below.
- B. Any discrepancies between the project fuel system specifications and current regulations or best practice should be noted to Bryan Gregory by the question due date specified below. Such discrepancies will be evaluated and, if appropriate, an addendum will be issued for the modification.
- C. Airport Security- Contractor is required to monitor radios during construction. Radios for the project to be provided by Contractor.
- D. Review Construction Layout and Safety Drawing G050 and G052 note the Staging Area & Airport Access gate. The Contractor shall install flasher barricades at the junction of the apron and new access road. around the perimeter of the construction site bordering the airfield to isolate the Contractor from aircraft.
- E. Contractor shall stay within project boundaries.
- F. Construction Management Plan submitted by the Contractor. See Section 100 (Section 3-51) & Section 4, Part C, Local Provisions, Item 22.
- G. Haul Route the Contractor shall be responsible for any damage to existing facilities or roads regardless of legal load. Repairs shall be made at no additional cost to the sponsor. Haul route is shown on the phasing sheet.
- H. A 12" RCP drainage pipe with minimal cover is to be installed under the existing airport fence. If necessary, the pipe may be adjusted by the field Engineer to accommodate the fence and posts, but the fence shall be protected during installation or restored to original condition if damaged at no cost to the Sponsor.
- I. Questions will be taken via written format to Bryan Gregory until Friday, March 1st, 2019 7:30 a.m. (CST). However, detailed questions should be submitted as early as possible or they may not be answered in time to make it into the final addendum.

#### 14. ADDENDUM UPDATE

Pre-bid meeting minutes and attendance will be distributed as an addendum. Any further addendums, including question responses, would be issued no later than Friday, March 1, 2019 at 4:30 p.m.

# 15. QUESTIONS/ANSWERS

- A. It was noted on the inspection that the turn to get into the contractor access gate is very narrow. The airport will work with the Contractor to provide escorted access across the airport apron as necessary, but all FOD control will be the Contractor's responsibility.
- B. The City noted that the payment process typically means payment will take roughly 2 weeks.
- C. Page SP1-8 incorrectly references a 12-1/2" hose in letter u. This hose should be 1-1/2" (inside diameter).
- D. Page SP1-7 letter n and Page SP1-8 letter s provide conflicting pump guidance. The 1.5HP submersible pump or similar as designed by the Contractor and approved by the Engineer is the correct pump.
- E. A previous question was received regarding a thickened slab foundation for the fuel tanks. As we cannot design for every manufacturer's specific equipment, if the Contractor wishes to pour a thicker slab instead of tank cradles on a foundation, the additional costs for the thickened slab should be placed in the Contractor's bid for item SP-1c, Fuel Tank Foundations. In such a case, a no-cost change order will likely need to be issued after bid award to correct quantities.
- F. A previous question was received regarding the need for a Missouri Professional Engineer to sign and seal the fuel system design. After further review, this requirement will be relaxed as it was not clear what the Professional Engineer was attesting to. References to the contractor's engineer can generally be replaced by the Contractor and references to a Professional Engineer hired by the contractor only apply to foundation design. The foundation design must be signed by a Professional Engineer.
- G. A question was asked regarding timeframe for submittal approval. Submittal reviews are considered some of the Engineer's highest priorities. However, review time can vary depending largely on the quality of the submittal itself. If the submittal is complete and well-organized, without the need for resubmittals, this could be accomplished in 1-2 weeks. However, if numerous revisions and re-submittals are needed, it could take significantly longer.
- H. It was noted that it is not beneficial to anyone involved to re-bid a project due to un-resolved questions or confusion. The City and Engineer strongly urge bidders to identify any potential changes or improvements to the project before bids are received so that they can be evaluated and incorporated into the project.
- I. A potential bidder identified that the plans did not specify the fill pipe to be at least 25' from the fuel tank and that it was incorrectly placed on the front of the fuel system drawing on sheet C920. Note that the drawing on sheet C920 may not be an accurate depiction of the specified fuel system and it will be incumbent on the successful contractor to meet all current regulations and identify best practices. In order to leave Contractors flexibility to bid items such as this that work best with their particular system, the Engineer will gladly work with the successful Contractor to resolve any outstanding questions such as the fill pipe placement, where deference will most likely be to the Contractor's recommendation keeping aircraft and user safety and convenience a priority. If a potential bidder has questions about how this area will be utilized in order to balance regulations and user convenience in items such as these, please let me know.

# QUESTIONS/ANSWERS FOLLOWING PRE-BID MEETING

- J. In addition to the contractor staging area shown, there is a gravel lot north of the airport paved vehicle parking lot, generally northeast of the work area, outside of the airfield fence. This area can be utilized by contractors if restored to original condition upon completion.
- K. Due to the extremely limited quantities, the Sponsor has decided that they can accomplish the pavement marking themselves to save anticipated high mobilization costs. An addendum will change these contract items to be accomplished by others.
- L. A question was received regarding the tank dimensions. Because we expect that each manufacturer's standard tanks will vary somewhat, we have attempted to accommodate various typical tank

- dimensions and clearance dimensions in the designed containment area. It is the Engineer's desire that the designed containment area will enclose the tanks. However, if it is impossible to meet the dimensional requirements within a reasonable budget, the Engineer will work with the successful bidder to identify reasonable changes needed to accommodate different tank dimensions.
- M. Revisions discussed herein can be considered final. We are working through the contract documents and specifications to make the necessary revisions, which we intend to issue in a future addendum, but didn't want to otherwise hold up these meeting minutes.
- N. A new federal wage order has been issued and will be incorporated in Addendum 1 with these pre-bid meeting minutes.

HEAVY AND HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.60 for calendar year 2019 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.60 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2019. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

GROUP 1: Asphalt roller operator, finish; asphalt paver and spreader; asphalt plant operator; auto grader or trimmer or sub-grader; backhoe; blade operator (all types); boilers -2; booster pump on dredge; bulldozer operator; boring machine (truck or crane mounted); clamshell operator; concrete mixer paver; concrete plant operator; concrete pump operator; crane operator; derrick or derrick trucks; ditching machine; dragline operator; dredge engineman; dredge operator; drill cat with compressor mounted (self-contained) or similar type self- propelled rotary drill (not air tract); drilling or boring machine (rotary-self-propelled); finishing machine operator; greaser; high loader-fork lift-skid loader (all types); hoisting engineer (2 active drums); locomotive operator (standard guage); mechanics and welders (field and plants); mucking machine operator; pile drive operator; pitman crane or boom truck (all types); push cat; quad track; scraper operators (all types); shovel operator; sideboom cats; side discharge spreader; skimmer scoop operators; slip form paver operator (CMI, Rex, Gomeco or equal); la tourneau rooter (all tiller types); tow boat operator; truck crane; wood and log chippers (all types).

GROUP 2: A-frame truck operator; articulated dump truck; back filler operator; boilers (1); chip spreader; churn drill operator; compressor; concrete mixer operator, skip loader; concrete saws (self-propelled); conveyor operator; crusher operator; distributor operator; elevating grader operator; farm tractor (all attachments); fireman rig; float operator; form grade operator; hoisting engine (one drum); maintenance operator; multiple compactor; pavement breaker, self-propelled hydra-hammer (or similar type); paymill operator; power shield; pumps; roller operator (with or without blades); screening and washing plant;

self-propelled street broom or sweeper; siphons and jets; straw blower; stump cutting machine; siphons and jets; tank car heater operator (combination boiler and booster); welding machine; vibrating machine operator (not hand held); welding machine.

GROUP 3: (a) Oiler;

- (b) Oiiler driver
- (c) Mechanic.

#### **HOURLY PREMIUMS:**

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$ .25) ABOVE GROUP 1 RATE: Dragline operator - 3 yds. & over; shovel 3 yds. & over; clamshell 3 yds. & over; Crane, rigs or piledrivers, 100' of boom or over (incl. jib.), hoist - each additional active drum over 2 drums

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$ .50) ABOVE GROUP 1 RATE: Tandem scoop operator; crane, rigs or piledrivers 150' to 200' of boom (incl. jib.)

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$ .75) ABOVE GROUP 1 RATE: Crane rigs, or piledrivers 200 ft. of boom or over (including jib.)

When such an employee has completed 3 years of continuous employment with the same employer and then works the above required number of hours, he shall receive double the number of days of vacation specified above. When such an employee has completed 10 years of continuous employment with the same employer and then works the above required number of hours, he shall receive triple the number of days of vacation specified above. When such an employee has completed 15 years of continuous employment with the same employer and then works the above required number of hours, he shall receive 4 times the number of days of vacation specified above.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

\_\_\_\_\_\_

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

#### Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

#### Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007

in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

\_\_\_\_\_

#### WAGE DETERMINATION APPEALS PROCESS

- 1.) Has there been an initial decision in the matter? This can be:
- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations Wage and Hour Division U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator U.S. Department of Labor 200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
