# Purpose of Meeting

- Discuss Fixed Price Variable Scope (FPVS) Contracting
- Review Specifications for A02 and D01
- Answer Questions

# What is FPVS contracting?

FPVS is a contracting method that allows MoDOT to vary the amount of work to be completed to match the project budget.

# How does FPVS work?

- The Contractor will bid the projects with the quantities established in the Schedule of Items.
- Award of the contract will be to the lowest responsible bidder.
- MoDOT manages the contract, by adjusting the contract quantities to maximize the use of the budget without exceeding the budget.
