The CJW Team – Traffic Engineer Experts

At CJW, we understand the unique challenges and pressures that face the transportation industry. Growing communities and aging infrastructures directly impact users of transportation systems on a daily basis. It is the goal of CJW to develop innovative solutions that enhance the mobility, safety, and quality of life for all transportation users in every community we serve.

The team at CJW has developed a reputation for accuracy, innovation and reliability. We specialize in solving highly complex transportation problems using cutting edge technology to provide our clients with a wide variety of solutions to meet their transportation needs. Our staff has worked with all sectors of the transportation industry including large cities, small communities, state departments of transportation, and private developers. It is this depth of experience that allows us to successfully complete the scope of any transportation project.

CJW actively works with all stakeholders in every project we do. Our staff strives to serve not only the client, but the public as well. Through community involvement and public awareness, it is possible to find effective designs that will serve each community well into the future.

The CJW Difference

Since our inception, CJW has worked diligently to create strong relationships with our clients. The foundation of our success lies in our ability to meet and exceed the unique needs of each client. Each member of our team is experienced and dedicated to providing the best possible service for each and every project we do. As our client, you can rest assured that you will be treated as a partner allowing all stakeholders to brainstorm, exchange ideas, and actively participate in the design process. This partnership will result in a service tailor-made to fulfill every aspect of your project from start to finish. Our unparalleled technical expertise, assurance of fiscal responsibility, and thorough understanding of stakeholder and community needs makes CJW the perfect choice for your project.
