1. QUESTIONS

Question: Who is responsible for Quality Control (QC) and Quality Assurance (QA)?

Answer: The Contractor is responsible for both the Quality Control (QC) and Quality Assurance (QA) for all testing associated to the project per the Contract Documents.

Clarification: During the Pre-Bid meeting it was stated that the Engineer would hire TSi for QA testing, this was incorrect as the Contractor will provide both QC and QA testing for the project.

No more questions will only be taken at this time.
