Proposed 2020 LiDAR Program

No	Project No.	County	Route	District	Length (mi)	Area (ac)	Acquisition Method	Project Scope
1	J6I3492	St Charles	I-70	SL	5.7	302.1	Hybrid Data Fusion (aerial/mobile)	Aerial photogrammetric, aerial and terrestrial LiDAR services for design and development of the specified highway project. Terrestrial LiDAR is defined as either mobile or static systems.
2	J6S3519	St Louis	N	SL	3.8	92.4	Mobile	
3	J7I3286	Webster	I-44	SW	23.3	1262.7	Hybrid Data Fusion (aerial/mobile)	Services shall include analytics, compilation and terrain modeling in addition to orthophoto imaging, ground targeting, aerial photography, Light Detection and Ranging (LiDAR) acquisition, and control surveying. Both aerial and terrestrial LiDAR projects will require the mapping of obscure areas, utilities and drainage, etc, for a full topographic service
4	J9S3660	Cape Girardeau	K	SE	4.6	443.0	Hybrid Data Fusion (aerial/mobile)	
5	J9P3661	Butler	67	SE	12.0	1475.8	Aerial
