

COEUR DE VILLE REHABILITATION PROJECT
FEDERAL PROJECT NUMBER STP-5526(639)
CITY OF CREVE COEUR, MISSOURI

ADDENDUM #1

AUGUST 19, 2016

Bidders are hereby instructed to make the following three (3) changes to the Bid Documents for the project referenced above and to consider these changes and the comments below when making a Bid for the work specified therein:

- Item #1: Separation Geotextile: Job Special Provision FF has been added for Separation Geotextile.
Discussion: This item was specified as part of the pavement design in the Construction Plans, but the type of geotextile was not indicated in the Bid Documents. A new Job Special Provision has been added to clarify the City's intent to use System C Geosynthetic Material.
- Item #2: Federal Wage Rates. Updated federal wage rates will replace those originally included in the Project Manual.
Discussion: The federal wage rate determination that governs this project was updated on August 19, 2016 through Modification #12. These wage rates supersede the wage rates that were included in the original Project Manual.
- Item #3: Road Closure Duration. The duration of the road closure allowed for the project through JSP E Traffic Management has been revised to be three (3) weeks.
Discussion: The road closure specified in paragraph 5.1 of JSP E (Traffic Management) was originally indicated as two (2) weeks, but this has been extended to three (3) weeks to reflect the discussion at the Pre-Bid Meeting and the time of year when the construction will occur.
- Item #4: Requests for Information. Several topics were discussed at the Pre-Bid Meeting on August 17, 2016, and City staff has received some additional inquiry into the project. Discussions that clarify the intent or substance of the Bid Documents are included below.
1. Retaining wall scope of work. As discussed at the pre-bid meeting, the intent is to remove and replace the entire retaining wall that is shown on the plans. No area has been provided for the face of this wall. The intent is to replace the wall with identical or similar block and to match the existing height of the wall.

2. Prime Coat. The design calls for a prime coat to be applied to the aggregate base prior to the construction of the roadway base. The City wishes to proceed with this portion of the work at this time, but the City reserves the right to re-evaluate the need for this application during construction.
3. Landscaped Area. The landscaping plan shown on sheets 28 and 29 of the Construction Plans involves the construction of two berms. The soil and other materials needed for the construction of these berms is to be supplied by the Contractor. On-site materials shall not be used to create the berms.

Addendum Summary

The three (3) changes and the requests for information included in this addendum affect thirty-two (32) pages of the Project Manual and zero (0) pages of the Construction Plans, as summarized below:

1.0 Work under this item shall conform to the applicable provisions of Section 403 of the St. Louis County Standard Specifications, amended as follows:

Add the following to the beginning of Section 403.1 Description:

403.1.1 When necessary, this work shall also be referenced as Geosynthetic Interlayer for Roadway Applications.

Replace the first paragraph of Section 403.2.1.1 with the following:

403.2.1.1 Geosynthetic Material. The geosynthetic interlayer material shall be of the System C Geosynthetic Material. All geosynthetic interlayer materials shall conform to Divisions 1000, Material Details, and in accordance with Section 1011.3.9.

Add the following to the beginning of Section 403.4.1.5:

403.4.1.5 The Contractor shall apply tack coat at the rate specified by the manufacturer of the geosynthetic interlayer material.

Add the following to the end of Section 403.4.1.7:

403.4.1.7 The tack coat material shall not be applied to any concrete curb, gutter, or driveway onto which no geosynthetic interlayer will be applied.

Replace Section 403.4.2 Method of Measurement with the following:

403.4.2 Method of Measurement. Measurement for furnishing and installing the geosynthetic interlayer will be made to the nearest square yard of the pavement surface onto which the geosynthetic interlayer is applied. Areas of overlapping material shall not be measured for additional payment.

403.4.2.1 No measurement for Tack Coat will be made for the additional material required by the manufacturer for the application rate and for retention. The quantities for Tack Coat associated with the geosynthetic interlayer has been calculated using an application rate of 0.05 Gal./SY, however if the manufacturer specifies a higher application rate or retention requirement, the cost to achieve these requirements shall be included in the costs for "Separation Geotextile".

Section 403.4.3 Basis of Payment. Remove this section and replace it with the following:

403.4.3 Basis of Payment. This work will be paid for at the contract unit price for "Separation Geotextile," shall be measured and paid for at the contract unit price per square yard and shall include additional tack coat required by manufacturer or needed for retention, materials, equipment, tools, and labor incidental thereto.

HEAVY AND HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
