BID DATE AND TIME: WEDNESDAY, JULY 6, 2016 – 11:00 A.M.

Jack Mentink, P E
June 27, 2016

GENERAL

1. This addendum shall modify the drawings and specification requirements as herein noted, however, it shall not relieve the General Contractor or Subcontractors of any responsibilities under the plans and specifications except as noted herein.
2. A Pre-Bid Conference was held at Rolla National Airport on June 22, 2016. Attached to this addendum are the meeting outline, questions asked and the items that were discussed. Also attached is a sign-up sheet of those who attended the meeting and a current plan holders list on the project.
3. Quality Control Program: The contractor will be required to have a quality control program as Identified in section 4, Item 5, page 4-42. Because of the nature of this project (mostly building construction), the contractor may operate the quality control program with the contractors employees who have experience complying with building contract requirements. Specific items the contractor will be responsible to pay for and employ qualified individuals to perform and test are identified in the individual specification sections.

Specific testing items that the owners representative will perform (paid for by the owner), include bearing capacity of the foundation soils at footings, and verification of specified compaction in areas that are to paved with asphalt or

concrete All concrete and asphalt testing, however, will be performed by the contractor's representative.

All other items identified in the specifications to be tested or verified shall be performed by the contractor's representatives and shall be included in the quality control program.

4. The contractor will be responsible to provide detailed location and elevation staking for all improvements on the project including but not limited to, utilities, foundation, drain lines, and electrical improvements. All improvements shall be staked by an organization under the direction of a Registered Professional Engineer. The owner shall be responsible to provide two elevation and location benchmarks.
5. The City of Rolla will make available its tax free status to the selected contractor to purchase materials which will be used on this project.
6. Enclosed are revised Federal Wage Rates for MO (1) Building 160033 & (2) Heavy & Highway 160001 both dated 6/24/2016 which are updated and are hereby made a part of the contract documents.

ARCHITECTURAL

1. On sheet A-201 under the Exterior Finish Schedule, the material description for FB (face brick) is hereby deleted. The description shall now read "MODULAR FACE BRICK VENEER IN RUNNING BOND PATTERN TO BE SIOUX CITY BRICK OR APPROVED EQUAL. COLOR TO BE SELECTED FROM CONTRACTOR PROVIDED MFR'S SAMPLES.
2. Contractor shall install 16"-24" deep white melamine shelving in closet rooms 110 & 116. Shelves shall be supported by Rubbermaid fastrack uprights or approved equal (.875" wide X 1" depth at maximum 24" on center) and furnished with shelf brackets that are 14"-16" deep on all uprights for each shelf. Each closet shall have up to (6) shelves. Spacing depth and height of shelving shall be approved by the Architect and the Owner.
3. All door hardware shall be a minimum of Hager Commercial Grade 1 or approved equal. Door hardware for Set No. 7 as detailed on sheet A-601 shall be Commercial Grade 1 or Heavy Duty.
4. All windows and doors shall be installed with flashing, WRB, etc. per manufacturer's best practices typical.

5. Contractor shall mount sign above Door 2 on the wall above with the universal "Accessible" Icon with an arrow directing occupants towards the Door 1 "Accessible" exit. Sign shall be highly visible and shall meet the requirements of Section 1110.2 under the 2012 IBC.
6. Contractor shall install (2) attic access hatches, one on the west side of the building and one on the east side. The attic access hatches shall be installed between the roof trusses in the gyp. board ceiling. Hatch shall be EZ-HATCH 22"x30" hatch by Battic Door (R-42) or approved equal. Install per manufacturer's instructions. Opening shall be trimmed out with paint grade 1x4 material. Locations of hatches shall be determined during the construction. Location shall be approved by the Architect.
7. Contractor shall install 2x blocking centered east to west in the vaulted ceiling and equally centered between the ceiling fans in the center of the vault that can support a 250# load for future Owner purchased fixture (N.I.C.). Reference sheet A-103.
8. The Collection and Tile Size listed under CR-1 Wall tile as detailed on sheet A-602 Finish Schedule is hereby deleted. The Collection shall be "Parkway" and the tile size shall be 12"x24". Refer to interior elevations.
9. On Detail 5/A-501 Keynote 15 is hereby deleted. This wall as detailed shall be a 2x8 framed wall. Refer to Structural.

END OF ADDENDUM

Page 1-3, Pre-bid Conference Minutes, Pre-bid sign-up sheet, current plan holders list, & Updated Federal Wage Rates for MO (1) Building 160033 & (2) Heavy & Highway 160001 both dated 6/24/2016

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion

date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

END OF GENERAL DECISION

General Decision Number: MO160033 06/24/2016 MO33

Superseded General Decision Number: MO20150033

State: Missouri

Construction Type: Building

Counties: Dent, Gasconade, Maries, Miller, Montgomery and Morgan Counties in Missouri.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal

process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
