

ADDENDUM #1

1.1 PROJECT INFORMATION

- A. Project Name: Independence & Gordonville Roundabout
- B. Owner: The City of Cape Girardeau, Missouri.
- C. Project Number: STP-1500(022)
- D. Engineer: Koehler Engineering and Land Surveying
- E. Date of Addendum: **April 25, 2016**

1.2 NOTICE TO BIDDERS

- A. This Addendum is issued to all registered plan holders pursuant to the Instructions to Bidders and Conditions of the Contract. This Addendum serves to clarify, revise, and supersede information in the Bidding and Contract Documents (Bid Documents), Drawings, and any previously issued Addenda. Portions of the Addendum affecting the Contract Documents will be incorporated into the Contract by enumeration of the Addendum in the Owner/Contractor Agreement.
- B. The Bidder shall acknowledge receipt of this Addendum as required at the top of page P-3 of the BID PROPOSAL.

1.3 GENERAL

- A. This Addendum provides comments, clarifications, questions and answers as a result of the Pre Bid Meeting held April 20, 2016. Subsequent questions and changes to documents are also noted below.

1.4 ATTACHMENTS

- A. Pre-Bid Meeting Attendance Sign-in Sheet
- B. Revised FEDERAL WAGE RATES effective 4/15/16

1.5 REVISIONS TO PREVIOUS ADDENDA

- A. None.

1.6 REVISIONS TO BIDDING DOCUMENTS, CONTRACT DOCUMENTS AND SPECIFICATIONS

REVISIONS TO BIDDING DOCUMENTS

- A. For paragraph (3) **PERIOD OF PERFORMANCE** on page P-1 of the Bid Proposal. **ADD** the following:

A delayed Notice-to-Proceed extending more than 30 calendar days beyond the date of award may be necessary as a result of programming changes currently in progress for this project.

- B. Per the **FEDERAL WAGE RATES**, **DELETE** “General Decision Number: MO160001: 4/01/2016 MO1” (32 pages total) in its entirety and **REPLACE** with “General Decision Number: MO160001 04/15/2016 MO1” as attached at the end of this Addendum #1.

REVISIONS TO JOB SPECIAL PROVISIONS

- C. Per **JOB SPECIAL PROVISION No. 36 “LIQUIDATED DAMAGES SPECIFIED”**, **DELETE** Job Special Provision No. 36 in its entirety and **REPLACE** with the following:

36. LIQUIDATED DAMAGES SPECIFIED

1.0 If the Notice-to-Proceed for this project is issued on or prior to June 20, 2016, the Contractor shall perform all street closure work on Independence prior to the SEMO Regional Fair in accordance with Scenario #1 of paragraph 1.1 below. If the Notice-to-Proceed date is issued after June 20, 2016, the Contractor may choose from either of the street closure/liquidated damage scenarios indicated in paragraph 1.1 or 1.2 below.

1.1 Description for SCENARIO #1 – CLOSURE OF INDEPENDENCE PRIOR TO SEMO REGIONAL FAIR. If the driving lanes of Independence Street are not paved, cured and reopened to traffic within 60 days from and including the day of closure and/or by September 2, 2016, whichever date occurs first, the City, the traveling public, and the state and local police and governmental authorities will be damaged in various ways, including but not limited to, increased construction administration costs, potential liability, traffic and traffic flow regulation cost, traffic congestion and motorist delay, with its resulting cost to the traveling public. These damages are not reasonably capable of being computed or quantified. Therefore, the contractor will be charged with liquidated damages specified in the amount of **\$5,000.00** per day for each full day that Independence Street pavement is not complete and open to traffic in excess of the limitation as specified else-

where in this special provision. It shall be the responsibility of the Engineer to determine the quantity of excess closure time. Exempt from the 60-day closure period are the Gordonville Road and East Rodney Street approaches which may be closed at the start of construction and remain closed until September 2, 2016. Also exempt from the 60-day period are staged portions of the street approaches and truck aprons that can be safely completed under traffic and other non-critical items approved by the Engineer. However all street approaches shall be fully open to traffic and the roundabout operating in full function with permanent signing and striping in place by September 2, 2016 or the above described damages shall apply. These liquidated damages are to apply in addition to the liquidated damages specified in the Bid Proposal and Agreement.

1.2 Description for SCENARIO #2 – CLOSURE OF INDEPENDENCE

FOLLOWING THE SEMO REGIONAL FAIR. The last day of the fair is Saturday, September 17, 2016. The Contractor may close Independence Street beginning on any date following September 17th (but not for any time prior to September 17th). If the driving lanes of Independence Street are not paved, cured and opened to traffic within 60 days from and including the date of closure, the City, the traveling public, and the state and local police and governmental authorities will be damaged in various ways, including but not limited to, increased construction administration costs, potential liability, traffic and traffic flow regulation cost, traffic congestion and motorist delay, with its resulting cost to the traveling public. These damages are not reasonably capable of being computed or quantified. Therefore, the contractor will be charged with liquidated damages specified in the amount of **\$5,000.00** per day for each full day that Independence Street pavement is not complete and open to traffic in excess of the limitation as specified elsewhere in this special provision. It shall be the responsibility of the Engineer to determine the quantity of excess closure time. Exempt from the 60-day closure period is the Gordonville Road approach which may be closed at the start of construction and remain closed during the fair (the concession for closure of Gordonville Road during the time of the fair shall apply only to Scenario #2). Also exempt is the East Rodney Street approach which may be closed at the start of construction but shall be re-opened by September 2, 2016 and remain open through September 17, 2016. Also exempt from the 60-day period are staged portions of the street approaches and truck aprons that can be safely completed under traffic and other non-critical items approved by the Engineer. However all street approaches shall be fully open to traffic and the roundabout operating in full function with permanent signing and striping in place at the end of the 60-day closure or the above described liquidated damages shall apply. These liquidated damages are to apply in addition to the liquidated damages specified in the Bid Proposal and Agreement.

2.0 The said liquidated damages specified will be assessed regardless if whether it would otherwise be charged as liquidated damages under the Missouri Standard Specifications for Highway Construction, as amended elsewhere in this contract.

REVISIONS TO PLAN SHEETS

D. None.

1.7 PRE BID MEETING COMMENTS

A. Bidders, the following is a brief summary of comments made during the Pre-Bid meeting held April 20th:

- 1) **Project Description:** This project includes construction of a single lane, 4-leg roundabout to improve traffic flow and reduce delay. The existing intersection is a 4-way stop. Construction includes excavation and embankment construction, stormwater structures, retaining walls, concrete pavement, signing , striping, traffic control, seed, mulch sod, etc.
- 2) **Missouri Tax Exemption Certificate** will be issued.
- 3) **Prevailing Wages:** Both state and federal wage rates will apply to this project. We will be checking for any updates to the federal wage rate 10 days prior to the bid opening. If any updates occur they will be incorporated via an addendum.
- 4) **Liability insurance limits** shall be as shown on pages SC-1 & SC-2. Additional entities that need coverage under policy listed on page SC-3.
- 5) **Construction Period:** The period of performance for this project is 180 consecutive calendar days with a Completion date of December 31, 2016
- 6) **Notice to Proceed:** The normal notice to proceed for this project is 30-days following award. There exists the possibility of a delayed notice-to-proceed as a result of a recently discovered programming issue for this project. Progress is being made toward resolving but we can't eliminate the possibility that there won't be a delayed notice-to-proceed. As a result, changes have been made to JSP 36 to accommodate an additional closure scenario should the notice-to-proceed date extend beyond June 20, 2016.
- 7) **Liquidated damages** will be charged in the amount of \$950.00 per day beyond the 180 day completion time. Any time extension requests are subject to the approval of MoDOT.
- 7) **Hierarchy of Documents:** Since both MoDOT and City of Cape specs are in play, there may be an increased potential for conflict. The hierarchy of documents is located on page P-6. Use the JSP's and Basis of Bids as guidance for preparing your bid as these do a good job of indicating which spec applies to each bid item.

- 8) **Basis of Bids:** The Basis of Bids begin on page P-9. Please don't forget to refer to these when preparing your bid.
- 9) **DBE Goals:** The DBE goal for this project is 11%. If you are low bidder you will be responsible for providing completed DBE identification submittals within 3 business days. You must demonstrate a good faith effort of toward attaining the indicated goal. DBE's must be selected from the MRCC list available on the MoDOT website.
- 10) **Addendum questions:** Bidder question deadline is 12:00 noon on Wednesday April 27th. Please submit addendum questions to: Tim Richmond, 573.339.6327 email: trichmond@cityofcape.org. We'll shoot for issuing two addendums. Addendum #1 on Monday April 25th to address the content of this meeting and Addendum #2 (if necessary) to address any questions which follow. All Addendums will be sent out via email to the address you've indicated on the sign-in sheet. Questions received after 12 noon on April 27 probably won't be answered unless they pertain to a finding of some significant flaw in the bid documents that we need to address.

11) **Job Special Provisions:**

JSP "12" – DRIVEWAY ACCESS FOR AFFECTED RESIDENTS: There may be some special considerations that you need to keep in mind for providing access to residents. There are elderly residents, etc that can't park elsewhere while their driveway is being reconstructed. Provision will need to be made to enable them to have access to their garage from the street at all times with only brief interruption. Also we have indicated time constraints on the closure time for the church and armory driveways that you will need to take into account when determining your work staging and schedule.

JSP "19" -- CLASS A EXCAVATION AND EMBANKMENT IN PLACE: Please read this JSP as it may affect your selection of a borrow source. Approximately 8,300 CY (compacted volume) of acceptable embankment material will need to be hauled in for this project. Unless a source is used that has already been cleared, it will be necessary for you to follow the "Guidelines for Obtaining Environmental Clearance" that is enclosed with the bid book.

JSP "33" – TIME RESTRICTIONS FOR MIGRATORY BIRDS: Please disregard. This JSP is primarily intended for bridge projects etc. and does not apply to this project.

JSP "36" – LIQUIDATED DAMAGES SPECIFIED: This JSP will greatly impact your construction staging and manpower allocation needs so carefully read this JSP and become familiar with its restrictions and exceptions. The City Engineer will allow closure of Independence Street only for a limited period of time not to exceed 60 consecutive calendar days. Independence is a busy street therefor a hefty \$5,000.00/day LD will be charged if Independence isn't reopened within 60 days. It will be necessary that the

Contractor plan his/her work carefully if the existing street is to be removed, the street embankment raised (east leg) and both the east leg and the circulatory lane paved all within the allotted 60-day period and still have time remaining for curing the pavement. It is not likely that the City will be receptive to any value engineering changes for altering the grades to lessen the embankment quantity etc. as further alteration could result in the intersection being less safe and/or less driver friendly. With this Addendum #1, a revised JSP#36 is being issued to provide additional latitude for the Contractor in the event the Notice to Proceed is delayed beyond June 20, 2016. For either scenario in the revised JSP, it could be to the Contractor's advantage to close the Gordonville Road leg at the earliest possible date as it is not subject to the 60-day clock (although for Scenario #1 it would need to be reopened during the fair). Your work won't need to come to a halt just because of the fair as there are a number of work items the contractor can accomplish while all the streets are open to traffic. The Contractor will need to be ready to start as soon as the Notice-to-Proceed is issued.

JSP #41 CONSTRUCTION TESTING: Concrete tests will be performed by the City of Cape Girardeau and compaction/moisture testing will be performed by the City's consultant, Koehler Engineering and Land Surveying, at no cost to the Contractor.

JSP "43" AMERICANS WITH DISABILITIES ACT (ADA) COMPLIANCE AND FINAL ACCEPTANCE OF CONSTRUCTED FACILITIES: Since this project includes some pedestrian features, a copy of the MoDOT ADA Checklist has been attached in Appendix B. The Contractor will be required to comply with the requirements of the checklist.

22) Utilities:

- a) AT&T relocations have been underway this month. Hopefully they will be completed soon.
- b) AMEREN GAS has already relocated the regulator station to a new location north of the armory. Gas lines remain to be relocated that will need to be staged with the Contractor's excavation activities after the street has been closed to traffic. It may be possible to accomplish some of the relocation work if Gordonville Road can be closed down ahead of the Independence closure but this has not been confirmed.
- c) AMEREN ELECTRIC has a new sub-transmission line project that will be constructed along Independence Street this summer. An existing pole is located in the future splitter island for the east leg of the roundabout. At last word, the pole will remain there until the end of August, but Ameren will relocate the guy wires so that fill material can be placed around the base of the pole (as might apply to Scenario #1 of revised JSP #36). A service pole to the church is located where the future church driveway relocation will be constructed but not anticipating any significant issue with getting it adjusted.

Also contractor will need to coordinate with Ameren regarding timing for removal of the Ameren street lights.

d) ALLIANCE WATER will need to wait until after the intersection is closed to traffic, before performing some or all of the water main relocation, but this work can possibly be coordinated such manner that water main can be relocated at the same time the Contractor is busy building the fill embankment for the east leg, etc so as not to result in delay. Plan sheet C12.0 shows the location where the new water main will need to be placed.

e) CITY FIBER relocation is included with this contract under Bid Item #56 so the Contractor will be in control of the timing. The relocation plan is shown on plan sheet C10.0.

f) CHARTER CABLE has most of their cables hanging on the Ameren power poles. Since Ameren will not be allowing Charter to hang on their new poles, Charter will need to relocate their cables more so in response to the Ameren upgrade than the roundabout project. Just need to make sure they place their relocated cables in a location safe from our construction.

g) CITY SANITARY SEWER adjustments for manhole lid elevations are indicated on plan sheet C0.8 for three manholes. This work is included with this contract under Bid Item #30. No other sanitary sewer adjustments are anticipated.

h) UTILITY COORDINATION MEETING will be necessary between the project award and the Notice-to-Proceed to resolve how remaining utility work can be staged/coordinated with the construction schedule.

20) **Erosion Control:** This project will require a land disturbance permit and a SWPPP book. A SWPPP book will be provided to the Contractor at the time of the pre-construction meeting. The Contractor will be responsible for maintaining entries in the SWPPP book, abiding by its guidelines and having the book available on site at all times.

21) **Retaining Walls:** Retaining walls are indicated at two locations on the plans. The retaining wall selection will need to be from MoDOT's preapproved products list and signed/sealed copies of the proposed wall plan will need to be submitted for approval.

1.8 PRE BID MEETING QUESTIONS AND ANSWERS:

A. Question; -- "MoDOT inspections?"

Answer; -- Yes, MoDOT inspectors will visit the job site from time to time, however City inspectors will be present on site on a daily basis during active construction.

C. Question; -- “Who is responsible for LD permit?”

Answer; -- The City will be responsible for obtaining the land disturbance permit from DNR and will include it with the SWPPP book which will be provided to the Contractor at the time of the pre-construction meeting.

D. Question; -- “Does provision need to be made to handle the 1-inch rainfall requirements?”

Answer; -- No specific water quality requirements are required for handling runoff from 1-inch (first flush) rainfall events for city street projects other than what can ordinarily be accomplished through the proper installation of the routine erosion/sediment control measures as called for in the plans. The 1-inch requirement more typically applies to permanent features such as infiltration trenches required for commercial developments, etc.

1.9 QUESTIONS RECEIVED AFTER THE PRE-BID MEETING:

No additional questions have been received as of the time this document was prepared. If any additional questions received they will be included in Addendum #2.

HEAVY AND HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

operators (all types); shovel operator; sideboom cats; side discharge spreader; skimmer scoop operators; slip form paver operator (CMI, Rex, Gomeco or equal); la tourneau rooter (all tiller types); tow boat operator; truck crane; wood and log chippers (all types).

GROUP 2: A-frame truck operator; articulated dump truck; back filler operator; boilers (1); chip spreader; churn drill operator; compressor; concrete mixer operator, skip loader; concrete saws (self-propelled); conveyor operator; crusher operator; distributor operator; elevating grader operator; farm tractor (all attachments); fireman rig; float operator; form grade operator; hoisting engine (one drum); maintenance operator; multiple compactor; pavement breaker, self-propelled hydra-hammer (or similar type); paymill operator; power shield; pumps; roller operator (with or without blades); screening and washing plant; self-propelled street broom or sweeper; siphons and jets; straw blower; stump cutting machine; siphons and jets; tank car heater operator (combination boiler and booster); welding machine; vibrating machine operator (not hand held); welding machine.

GROUP 3: (a) Oiler;
(b) Oiler driver
(c) Mechanic.

HOURLY PREMIUMS:

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$.25) ABOVE GROUP 1 RATE: Dragline operator - 3 yds. & over; shovel 3 yds. & over; clamshell 3 yds. & over; Crane, rigs or piledrivers, 100' of boom or over (incl. jib.), hoist - each additional active drum over 2 drums

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$.50) ABOVE GROUP 1 RATE: Tandem scoop operator; crane, rigs or piledrivers 150' to 200' of boom (incl. jib.)

THE FOLLOWING CLASSIFICATIONS SHALL RECEIVE (\$.75) ABOVE GROUP 1 RATE: Crane rigs, or piledrivers 200 ft. of boom or over (including jib.)

4/22/2016

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a

new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.

<http://www.wdol.gov/wdol/scafiles/davisbacon/MO1.dvb?v=5>

4/22/2016

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

-- There are no other changes to the contract documents in this addendum. --
