

**ADDENDUM NO. 2**

**City of Concordia, Missouri  
Trail of Memories Project**

ISSUE DATE: November 19, 2012

Bidders are hereby notified that the Bidding and Contract Documents for the above-referenced project, for which Bids are to be received on November 27, 2012, are clarified as follows:

1. QUESTION: Bidders have asked if the quantities for imported fill material [**Bid Item Nos. 11, 31, 42, 49, 58 and 75: Fill (imported material – haul, placement, compaction, grading)**] reflect the amount of material the City brought to and placed at the site during the work previously completed by the City forces.

CLARIFICATION: The quantities on the Bid Form **do** reflect the quantity of material imported by the City, with the exception of excess material that has been stockpiled on the site. The quantities on the Bid Form are accurate.

2. QUESTION: Could the Bidders eliminate from their Bids the cost of providing and hauling to the site imported fill material if the City provides the imported material.

CLARIFICATION: The City will not provide or import additional material to the site nor be a vendor to supply imported fill material. The work [**Bid Item Nos. 11, 31, 42, 49, 58 and 75: Fill (imported material – haul, placement, compaction, grading)**] remains the full responsibility of the Contractor.

NOTE: During the work previously completed by the City forces, some excess material was delivered and stockpiled on the site; the stockpiled material has not been quantified. The stockpiled material shall be used by the Contractor (the quantity will be field measured) and will be paid for at the price for on-site fill material [**Bid Item Nos. 10, 30, 41, 48, 57 and 74: Fill (on-site material – placement, compaction, grading)**]. Final quantities of both on-site, and imported fill material will be adjusted accordingly.

NOTE: Bidders must acknowledge receipt of this Addendum by listing the number and date, where provided, on the Bid Form.
