

Driving community and industry forward, together.

Bartlett & West exists for one reason – to work with businesses and communities across the nation to make people's lives better. It is a shared goal with our clients.

From water systems to railroads to public spaces, we use **ENGINEERING AND TECHNOLOGY** to solve problems for real people, their communities, and their businesses. We help companies produce and deliver. We help cities create jobs and grow infrastructure. We help people and goods get where they need to go, safely.

Using the knowledge gained since Bartlett & West started in 1951, we partner with public and private clients to build and maintain stronger, smarter, more connected infrastructure. We are an ally in orchestrating change. We listen to your needs and collaborate to bring forth solutions.

CORE MARKETS

We provide innovative technology and engineering solutions to clients nationwide. With deep industry knowledge and a passion for creative problem solving, we engineer better tomorrows.

DOTs

Bartlett & West has a rich history of partnering with departments of transportation in providing safe and efficient solutions for the traveling public. Our engineers are respected for their in-depth knowledge of best practices, regulations and new technologies. Our best-in-class transportation solutions drive community and industry forward, together across town, the state and the country.

LOCAL GOVERNMENT

As an ally in delivering infrastructure solutions that transform communities, Bartlett & West has a core commitment to building a better tomorrow with every city or county with which we work. Whether providing water, transportation, site planning, outreach, or any other service, we are dedicated to being responsive, reliable and value-minded.

RAIL

Bartlett & West partners with rail clients to deliver innovative, technology-based services through market understanding, commitment to quality, and safety-minded solutions. We are dedicated to being a long-term ally who understands all facets of the railroad industry and brings you world-class solutions. We help rail clients drive the industry forward and overcome shared regulatory challenges.

WATER

Founded in 1951 as a rural water firm, Bartlett & West's water-focused services (rural, municipal, industrial, and wastewater) have been core markets for the company ever since. In fact, we are nationally ranked as a top water engineering firm.

For rural water districts and municipalities, Bartlett & West is a trusted consultant who is constantly looking out for our clients' best interests. We serve as a part of our clients' teams and help to develop solutions that meet the needs of our communities. We deliver customized solutions that are budget sensitive and on time. Our professionals provide consistent communications regarding our understanding of the client and system needs and manage those needs accordingly.

TRIBAL

For tribal communities, Bartlett & West plans, designs, and constructs water systems that deliver clean, safe water for a variety of purposes. Bartlett & West is known for its top-tier engineers and more than six decades of experience in developing reliable water systems, while helping tribal clients navigate regulatory and funding agency red tape. In addition, our irrigation and transportation planning and engineering solutions bring tribal communities together.

INDUSTRIAL/INSTITUTIONAL

From renovating a single structure to designing and building an entire site, Bartlett & West's planning, design, and construction services will get your project off the ground and through to completion.

ENERGY

Our energy-focused services meet the industry's demanding and ever-changing needs, from facility and site planning support to adept navigation through the regulatory and permitting process.

TECHNOLOGY & INNOVATION

Bartlett & West is committed to helping clients build stronger, smarter, more connected infrastructure. We invest in and leverage our own technology to solve problems and deliver innovative solutions that meet our clients' needs.

Bartlett & West

Driving community and industry forward, together.

Transportation built on trust

TRANSPORTATION SERVICES

- Analysis and Roadway Design
