

# CDI COMPANY PROFILE

In 1996, Vicki LaRose, P.E. established Civil Design Inc. (CDI) with a focus on helping clients design quality infrastructure through successful, results-based projects. Today, CDI has established a reputation for excellence and a solid base of satisfied, repeat customers. Our firm has grown to over 70 team members with 33 Engineers. CDI has the expertise in-house to provide our clients with quality civil engineering, mapping and surveying services. Throughout our history, CDI has embraced the idea of developing innovative solutions for complex engineering problems. Our insight and experience allow us to empower our clients to make intelligent decisions on how to apply limited resources in the best way for their projects.

The culture at CDI is centered around **BUILDING STRONGER COMMUNITIES**. CDI is a leader in providing a positive and sustaining impact on our client community, local community, and co-workers. We are building a community of dedicated and passionate staff who are focused on those we serve. Because of this community-based culture, we will consistently offer the most positive, quality-driven and authentic experience.

## VICKI S. LAROSE, PE

PRINCIPAL | VLAROSE@CIVILDESIGNINC.COM

Vicki LaRose founded CDI in 1996 to provide responsive, quality-driven civil engineering services after gaining 11 years of experience in project management and leadership roles with St. Louis-based Sverdrup Corporation (now Jacobs Engineering). Under Vicki's direction, CDI has experienced continuous success, gaining a reputation for delivering on-time, in-budget designs for construction management, water resources, transportation, site development, and surveying projects.

## OFFICE LOCATIONS & SERVICE AREAS

## CULTURE, VALUE & MISSION

CDI's culture is centered completely around **Building Stronger Communities**.

Whether it be our client community of trusted partners in civic progress, business and engineering, our local community of the cities and neighborhoods where we live and work or our co-worker community of dedicated staff and their supportive families; CDI is committed to leading a positive and sustaining impact to all those we serve.

This is why having a strong and vibrant culture is so important to CDI, we are building a community of dedicated and passionate staff who are focused not on themselves, but rather focused on those we serve. And it is because of this culture of community-based and servant leadership, we will consistently offer the most positive, quality-driven and authentic experience.

### CONTINUOUS GROWTH & LEARNING

We believe individual potential should never be underestimated and we have the courage to challenge each other in productive ways.

We are committed to integrating Innovative technologies, efficiencies and processes into our client solutions.

### OWNERSHIP

We believe that commitment, driven by personal initiative, is the best way to serve our company, clients and community.

We don't micromanage our team members on how best to serve our clients and support our projects.

### MUTUAL TRUST & RESPECT

We aspire to create an environment that provides professional freedom focused on trust and respect.

A cohesive and trusting team works more closely together and we are committed to being open and transparent with our clients.

### RESPONSIVENESS

We believe that exceptional service means quickly responding to the needs of others.

Simply said, we value and respect your time.
