April 5, 2013

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm to perform the described professional services for the projects included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than three pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information which might help us in the selection process, such as the persons or team you would assign to the project, the backgrounds of those individuals, and other projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 3:00 pm, April 19, 2013 at the appropriate office.

Sincerely,

Kathy Harvey
State Design Engineer

Shirley.norris@modot.mo.gov

Jefferson County, Route 61	
Job No:	J6S2093
Location:	About 2.25 miles south of Kimmswick
Proposed Improvement:	Replace bridge G0499. Route 61 over Glaize Creek.
Length:	The existing 3 span bridge is a total of 160 feet long, consisting of 50'-60'-50' W beam Cantilever Spans
Approximate Construction Cost:	\$1,400,000
DBE Goal	15%
Letting Date:	June 2014
Consultant Services Required:	<ul style="list-style-type: none"> • Complete bridge survey (District personnel have obtained quite a bit of field data) • Preliminary bridge design including hydraulics, preparation of Bridge Memorandum and boring location requests • All required geotechnical work • Final bridge design • All roadway design
Other Comments:	<p>100% unsigned and unsealed bridge plans and JSP's are due to the Bridge Division Review Section by February 26, 2014. Final electronic signed and sealed bridge plans and JSP's must be submitted to MoDOT's Design Division by April 9, 2014 , for a June 2014 letting.</p> <p>No interviews – due to the short timeframe it is anticipated that selection will be made within two weeks. Goal is to have the project under contract with a consultant quickly.</p> <p>Information regarding this project is on the following FTP site: ftp://ftp.modot.org/Central%Office/Bridge/J6S2093/</p>
