Dear Consultant:

The Missouri Highway and Transportation Commission is requesting the services of a consultant engineering firm to perform the described professional services.

The general description of these services is to conduct a thorough, in-depth inspection and evaluation and provide a thorough report of findings of the capacity and life expectancy for the Missouri River Bridges at Glasgow and Miami, MO. In addition, we would also require that a rehabilitation strategy and cost estimate to keep the structures in service for fifty years be provided. Our expected delivery for these items from the selected consultant will be six months from the notice to proceed. Letters of interest from your firm should include providing the services for both structures. A detailed scope of services will be established as a result of the discussion with the selected consultant.

If your firm would like to be considered for the consulting services, you may express your interest by responding to:

Shyam Gupta, P.E., State Bridge Engineer
Missouri Department of Transportation
105 West Capitol Avenue
P.O. Box 270
Jefferson City, MO 65102

Please limit your letter of interest to no more than five pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information, which might help us in the selection process, such as persons, or team you would assign to the project, backgrounds of those individuals, and other projects your company has completed similar to these projects. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information. In addition, personal presentations will not be required but follow-up conversations with your firm may be used to aid the selection process.

We request that all letters be received by 4:00 pm, August 31, 2006.

Sincerely,

Dave Nichols, P.E.
Director of Program Delivery
