December 9, 2008

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office indicated on the attachments. Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those individuals, and other projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

A firm may submit a letter of interest for any, or all, of the projects listed, please clearly note the projects that are of interest to your company. Services are being solicited in anticipation of a federal economic stimulus package. If the funds do not become available the contracts may be terminated.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 4:00 pm, December 19, 2008 at the appropriate office. Email responses are encouraged.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dave Nichols", written in a cursive style.

Dave Nichols
Director of Program Delivery
