March 16, 2009

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those individuals, and other projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 3:00 pm, March 23, 2009 at the appropriate office.

Sincerely,

Dave Nichols  
Director of Program Delivery

Email responses are encouraged

<b>Ste. Genevieve County, Route B</b>	
<b>Job No:</b>	J0S2198
<b>Location:</b>	About 9.0 miles southwest of Ste. Genevieve.
<b>Proposed Improvement:</b>	Replace existing truss bridge X0067 over Aux Vases River in connection with District 10 project to widen and resurface Route B from Route 32 to Route F.
<b>Length:</b>	The existing 3 span bridge is a total of 231 feet long, with the main truss in span 2 being 141 ft. in length.
<b>Approximate Construction Cost:</b>	\$2.0 Million
<b>DBE Goal</b>	TBA
<b>Consultant Services Required:</b>	<p>Roadway: Roadway design will be done in-house by District 10 personnel.</p> <p>Bridge: hydraulic analysis, scour studies, preparation of Bridge Memorandums (including preliminary estimate) and boring location/ requests, preliminary and final bridge design of the new bridge. May include field surveys.</p> <p>The geotechnical investigation will be conducted by MoDOT.</p>
<b>Other Comments:</b>	<p>100% unsigned and unsealed bridge plans are due to the Bridge Division Review Section by September 25, 2009. Final electronic signed and sealed bridge plans and JSP's must be submitted to MoDOT's Design Division by November 6, 2009 for a January 2010 letting.</p> <p>Consultant will need to coordinate directly with District 10 regarding roadway design and to develop the Bridge Memos.</p> <p>No interviews – due to the short timeframe it is anticipated that selection will be made within one week. Goal is to have the project under contract with a consultant quickly.</p>
