January 7, 2010

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those individuals, and other projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 3:00 pm, January 14, 2010 at the appropriate office.

Sincerely,

Dave Nichols
Director of Program Delivery

Email responses are encouraged

District 5

Boone County, Route 63	
Job No:	J5P0738
Location:	Intersection with Route H (Columbia Airport)
Proposed Improvement:	Construct a diamond interchange at the intersection of Route H and Route 63. Will include some realignment of Route 63.
Length:	Less than 2 miles
Approximate Construction Cost:	\$1.5 million for the items designed under this consultant contract
Consultant Services Required:	<p><u>Bridge to carry Route H Over Route 63:</u> Provide preliminary and final bridge design based on Bridge Survey supplied by MoDOT District 5. Also includes geotechnical work for this bridge and any MSE walls that may be used as part of the bridge.</p> <p><u>Bridge to carry southbound Route 63 over Turkey Creek:</u> Provide field surveying and other work necessary to produce the Bridge Survey. Also, provide preliminary and final bridge design including any geotechnical work necessary for this bridge.</p>
Other Comments:	<p>Interviews or presentations will not be required for the consultant selection.</p> <p>Tentative Date of Consultant Selection-January 21, 2010</p> <p>PS&E date will be 5/1/10.</p> <p>Meeting this aggressive timeline is critical to the success of the project.</p> <p>Funding for this project is contingent upon MoDOT receiving additional American Recovery and Reinvestment Act funding.</p>
