November 10, 2010

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of consulting engineering firms to perform the described professional services for the projects included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project and why you would be especially qualified for the type of work indicated. It should also include any other information which might help us in the selection process, such as your project approach indicating how you plan to meet the deadline, the persons or team you would assign to each project, the backgrounds of those individuals, and other similar projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

There will be no DBE goal for this contract, however, MoDOT encourages prime consultants to utilize MoDOT certified DBE subconsultants anyway they can on the project.

We request all letters be received by 3:00 pm, November 15, 2010 at the appropriate office.

Sincerely,

Dave Nichols  
Director of Program Delivery

<b>Jackson County, Route I-670</b>	
Job No. :	J4I2023B
Location:	Immediately west and adjacent to Bartle Hall in Kansas City
Proposed Improvement:	Replacement of existing Broadway Street Bridge (Bridge No. A1117) over Route I-670. New bridge will have 55'-0" roadway and two 10' sidewalks. Aesthetic enhancements will be included.
Length:	The existing 5 span continuous concrete box girder bridge has a total length of about 366 feet. Roadway improvements will be needed beyond the bridge ends.
Approximate Construction Cost:	\$5,000,000 - \$7,000,000
Consultant Services Required:	<p>Bridge: Determine a cost efficient structure and foundation type that can accommodate expedited construction to meet the project deadlines. The consultant shall produce the preliminary and final bridge design.</p> <p>Shop drawing checking and load rating will be performed by MoDOT.</p> <p>Surveying: MoDOT will set survey controls. All other necessary surveying for the project will be provided by the consultant.</p> <p>Geotechnical: All geotechnical work (both field work and laboratory) will be provided by the consultant.</p> <p>Roadway: The consultant will produce preliminary and final roadway plans. Construction will be restricted to existing right of way.</p>
Other Comments:	<p>The consultant will be expected to coordinate closely with MoDOT personnel.</p> <p>Construction of the project must be completed and all lanes open to traffic by September 16, 2011 for the opening of the Performing Arts Center.</p> <p>An April 22,2011 letting is expected.</p> <p>PSE due date will be February 14, 2011</p> <p>No interviews or presentations. Due to short timeframe it is anticipated that consultant selection will be made within one week of the due date for letters of interest. Goal is to have the project under contract with a consultant quickly.</p> <p>Further project information, including the existing bridge plans, will be posted on MoDOT's external ftp site as it becomes available at: <a href="ftp://ftp.modot.org/bridge/Broadway_Ave_Bridge/">ftp://ftp.modot.org/bridge/Broadway_Ave_Bridge/</a></p>
