

## **Traffic Engineering Assistance Program (TEAP) Funding Now Available**

Application period 07/07/2016 through 09/09/2016

The Missouri Department of Transportation is seeking projects that could be funded with Traffic Engineering Assistance Program (TEAP) funds.

The Traffic Engineering Assistance Program (TEAP) allows local public agencies (LPA) to receive engineering assistance for studying traffic engineering problems. LPAs facing a traffic safety or operational problem can utilize the [LPA On-Call Consultant List](#) to perform a traffic study.

Typical traffic engineering related projects include: corridor safety and/or operational analysis, intersection(s) safety and/or operational analysis, speed limit review, sign inventory, pedestrian/bike route analysis, parking issues, and other traffic studies, etc.

Local public agencies are reimbursed for eligible project costs at a rate of 80 percent with the local agency providing a 20-percent match. Funds administered by MoDOT will provide 80 percent of the TEAP project costs, up to \$8,000 per project. If the total cost is greater than \$10,000, the local agency can pay more than 20 percent to complete the TEAP project, if desired.

Eligible projects must be able to be completed by spring of 2017.

Applications are due September 9, 2016 to the [district LPA staff](#), with selected projects to be announced in October 2016.

For more information and [applications](#), visit [TEAP](#)

For details on how to apply and the application process, please contact your local MoDOT LPA person: <http://www.modot.org/business/manuals/LPAContacts.htm>
