

MECO OFFERINGS

PRE-CONSTRUCTION SERVICES

- Bid advertising Pre-Bid meetings
- Respond to RFI inquiries during bid phase
- Bid opening, bid tabulation, contractor qualifying, award recommendations
- Review of insurance, bonds/contracts
- Pre-construction conference

MECO promotes the successful completion of construction projects by providing professional and comprehensive project and construction management and construction observation services.

We have the staffing to dispatch experienced and seasoned construction managers, inspectors, and Resident Project representatives (RPR) to meet the needs and level of service required of the individual project and client. Our construction technician team represents over 180 years of combined practical and field experience. Various certifications held by our construction specialists include MoDOT Technician Certification for Concrete Field (CF) Testing/Inspection, MoDOT Technician Training, and OSHA training courses including: 10-Hour Construction Safety and Health, Lead Based Paint Safety Awareness, and Confined Space Safety. Additionally, all project managers/engineers conduct routine field visits throughout the construction period to ensure quality and compliance.

MECO provides construction management and on-site services for a wide range of civil, public works, transportation, structural, bridge, mechanical, and electrical engineering projects. Construction materials and workmanship are reviewed for compliance with approved plans and specifications, assuring that your project

is constructed as designed and approved. We work closely with the client to develop a tailored approach and construction management plan that meets the client needs, specific project scope requirements, budgets, and objectives, offering full-time or part-time construction observation services.

PROJECT MANAGEMENT / CONSTRUCTION ENGINEERING

- Contract Administration Construction Management Construction Observation
