

WE ARE PASSIONATE ENGINEERS, LANDSCAPE ARCHITECTS, & SURVEYORS

Renaissance Infrastructure Consulting (RIC) is a 100% Employee Owned company that brings innovation and expertise to public and private infrastructure projects throughout the Midwest. We deliver “*Creative Ideas and Practical Solutions*” to our clients through consulting, engineering, land surveying, landscape architecture, and construction phase services.

Ample
Capacity

We separate ourselves from the competition by the level of commitment we give our clients and our devotion to quick correspondence, transparency, and attention to detail. Our clients appreciate the level of passion and integrity we bring to each of their projects as we stand by them throughout the entire project - from conceptual design through construction - acting as both an advocate and trusted advisor. Our profound understanding of the built environment gives us the ability to recognize what is possible, economical, and sustainable.

DEDICATED PROFESSIONALS, TRUSTED ADVISORS

Our staff's combined experiences, education, and creativity make the outcomes expected by our clients possible. RIC's success is a direct result of our hard working and dedicated team members as they are our most valuable resource.

Our team includes:

- 14 Professional Engineers
- 1 Professional Traffic Operations Engineer
- 6 Professional Land Surveyors
- 1 Professional Landscape Architect
- 1 Landscape Designer
- 8 Design Engineers
