ADDENDUM NUMBER TWO

DATE: September 24, 2020

OWNER: City of Valley Park, Missouri

SUBJECT: Addendum Number Two to St. Louis Avenue Phase 1 Improvements Federal Project No. STP-9901(641) Cochran Project No. SC18-809

This Addendum forms a part of the Bidding and Contract Documents and modifies the original Bidding Documents. FAILURE TO ACKNOWLEDGE RECEIPT OF ADDENDUM MAY SUBJECT BIDDER TO DISQUALIFICATION.

ITEM:

1. <u>CLARIFICATION</u>: Any flowable fill needed to abandon existing storm sewers, as called out on the plans, shall be included in the lump sum amount for Removal of Improvements.

All flowable fill needed shall meet MSD specifications, Part 5 Concrete Construction, Section G Flowable Fill.

At the Contractor's option, in lieu of using flowable fill, the Contractor may opt to remove the existing storm sewer as needed for construction of the improvements. This cost, including any backfill needed, should also be included in the Removal of Improvements line item.

- 2. <u>CHANGE</u>: In the Project Manual <u>delete</u> Section 5200 JOINTS. No joint sealing will be required for new concrete pavement or curb.
- 3. <u>CHANGE</u>: In the Project Manual, Section 5000 Portland Cement Concrete, Part 6.E.2.b to read as follows:

"Transverse contraction joints in the pavement shall be sawed at a **maximum of twelve-foot (12')** intervals, or as directed by the Engineer (if changes are deemed necessary) ..."

This jointing requirement shall apply to concrete pavement, including concrete shoulder, 8". Concrete sidewalk and driveway joints shall meet requirements as shown in the plan details.

END ADDENDUM NO. 2
