

New Railroad Bridge

Chestnut Expressway near U.S. 65

Project Facts:

- ♦ Build a railroad overpass on Chestnut Expressway west of U.S. 65
- ♦ Install a new traffic signal at Chestnut Expressway and Ingram Mill Road
- ♦ Build access roads to businesses on either side of Chestnut Expressway

Phase One — June 2016-Dec. 2016:

- ♦ Build new city street north of Chestnut Expressway
- ♦ Build temporary bypass north of Chestnut Expressway across railroad tracks
- ♦ Relocate utility lines
- ♦ **Completed**

Phase Two — Jan. 2017-Late 2017:

- ♦ Build railroad bridge over Burlington Northern-Santa Fe tracks
- ♦ Widen intersection of Ingram Mill Road & Chestnut Expressway and add traffic signal
- ♦ Build access road underneath Chestnut Expressway east of railroad tracks
- ♦ **Traffic Impacts:**
 - ◇ Chestnut Expressway traffic shifted to temporary bypass
 - ◇ Two westbound lanes and one eastbound lane open on bypass
 - ◇ Significant traffic delays expected on Chestnut Expressway
 - ◇ Drivers urged to find alternate routes
 - ◇ Left turns restricted at Belcrest Avenue and Chestnut Expressway

Estimated Total Cost: \$14.8 million

Completion: Late November 2017
